EIGHT PAGES TODAY

HERBERT HOOVER FORS THE LEAGUE

mer Food Administrator, Back
From Europe, Says he is for
Covenant as it is.

PEACE IS BUILT AROUND IT

It will Not Change Men's
Character Over Night—Pre-
dicts Fall of Prices.

(By United Press.)
New York, Sept. 13.—"I stand
the league of nations as it is,"
Herbert Hoover made this declar-
ation today when he returned to
America on the liner Aquitania from
Europe where he has been acting as
allied relief director.

This treaty is constructed around
theory of the league of nations
not on the theory of balance of
power," he declared.

There are more than thirty refer-
ences to the league of nations in
the treaty. The two are interde-
pendent," he added.

"I don't believe the league of na-
tions will change men's character
overnight," said Hoover.

Very possibly nations will at-
tempt to make alliances and affect
balance of nations, although the
theory of nations is adopted, though
I believe they will be a failure," de-
clared Hoover.

With regard to the German in-
debtedness, no nation now knows
whether Germany can pay the
debt. But she can not unless she
offers credit with which to pur-
chase the raw materials in Ameri-
ca and other nations."

"The delay in making peace," he
said, "has had a terrible result in
economic and social life of
Europe."

The talk among all European
people is for peace. At the declara-
tion of the armistice, America had
supplied Europe with \$2,220,000,000
worth of supplies," Hoover said.

"During the next year this country
will supply Europe with 50 per
cent of its food necessities."

Hoover predicted that the price of
foodstuffs in America soon will begin
fall.

With Mr. Hoover are his wife and
Allan. He will remain here for
dinner to be given in his honor
today by the American Institute
Mining and Metallurgical En-
gineers and then go to his home in
Alto, Cal.

Also on the Aquitania was a
special prison commission from In-

MARRIED 31 YEARS; SUES FOR A DIVORCE

Samuel Buckner, Custodian of Court
Houses, Alleges Wife Was Quar-
relsome and Jealous.

ASTEFUL AND EXTRAVAGANT

After 31 years of married life, all
which is described as being un-
bearable, Samuel Buckner today
sued in circuit court against Letha
Buckner, asking that the court
grant him a divorce. Buckner says
that they were married in Shelby-
ville on December 17, 1888, and sepa-
rated July 4, this year.

Mr. Buckner, who is a colored
man, is custodian of the county
court house. He alleges that his
wife was always quarrelsome and
wasteful, careless of her house-
hold duties, wasteful and extrava-
gant. He also says in the complaint
that she was insanely and unreason-
ably jealous without cause, which
made his life a burden, and that dur-
ing his entire married life he could
not even speak to another woman in
a friendly way, unless it would
cause trouble.

DEVELOPES INTO A FIGHT

Johnson's Campaign Ceases to be
Argument Against the League

(By United Press.)
St. Louis, Sept. 13.—Senator Hil-
ary Johnson's trip along the trail
of the president is rapidly taking
on more the nature of a fight than
an argument.

Encouraged by a crowd of 12,000
men and women which cheered him
for fifteen minutes in the big col-
iseum here last night, the senator's
reference to the peace treaty and
provisions of the league covenant
became sharper and more bitter than
in his previous speeches.

JURY GETS HORSE CASE AT 3 THIS AFTERNOON

Evidence in Note and Breach of
Warranty Suit is Concluded
in Circuit Court at Noon

STALLION ALLEGED UNSOUND

All the witnesses in the case of
Pratt vs Goldman were examined
this morning, and the arguments be-
gan this afternoon, and it was in
the hands of the jury by three
o'clock. Several witnesses were put
on the stand to testify that the
stallion purchased by Goldman was
unsound at the time the purchase
was made, and was not a breeder,
although the horse was intended to
be used as such.

The plaintiff introduced the evi-
dence this morning to show the
stallion was originally purchased by
the Pratts for \$3,000, and when
offered for sale to Harry Goldman,
was priced at only \$1,200, and it
was attempted to prove that some-
thing was evidently wrong with the
animal, or the price would not have
been cut.

A veterinarian testified as to the
physical condition of the animal.
The suit was to collect on a note
for breach of warranty, and in all
amounted to about \$1400. The date
of the sale was in 1913.

The grand jury has been called to
report on Tuesday, and it is ex-
pected that the original panel will
be used. It is not known what the
purpose of the grand jury will
be, but several people have been
summoned to appear on Tuesday
and Wednesday of next week.

OBJECTS TO LEAGUE BEING PARTY MATTER

President Wilson "Reads Riot Act"
To Anyone Injecting Politics
Into The Fight

SPEAKS AT TACOMA TODAY

(By United Press.)
Tacoma, Washington, Sept. 13.—
President Wilson today "read the
riot act" to anyone who tried to
make the league of nations fight a
party matter.

In a speech here he declared it
would be no part of the debate that
republicans suggested the idea of
the league of nations. He said he
was making that kind of a speech to
"read the riot act to anyone who
seeks to make this a party matter."

Wilson named Taft and Wicker-
sham as republicans who was work-
ing for the treaty.

If it fails, he warned, mothers
should weep for the child at her
breast, who will, when he is grown
to manhood, be called to the front.
He mentioned the children who came
to greet him and said he hoped that
they never would have to carry a
flag into battle.

President Wilson left here at noon
for Seattle, where he was to review
the Pacific fleet at 3 p. m.

MANY FARMERS BECOME MEMBERS

First Meetings in County Drive to
Last a Week, Are Held at Mil-
roy And Richland

SHOW VALUE OF ORGANIZING

T. A. Coleman and Howard Ewbank,
County Secretary, Emphasize
Necessity of Getting Together

The first meetings in the Rush-
county drive for membership to the
farmers' organization were held at
Milroy and Richland yesterday eve-
ning. Both meetings were well at-
tended and great interest was mani-
fested. Practically every farmer
present asked for membership.

T. A. Coleman addressed the
meeting at Richland and explained
in a forceful way the necessity of a
good working organization. He
placed special emphasis on the nec-
essity of farmers being organized to
protect themselves against vicious
and unwise legislation, citing as
examples a number of attempts to
pass unwise legislation where indi-
vidual farmers representing no one
but themselves successfully lobbied
against the bills. These things, he
said, ought to be taken care of in
an organized way for they concern
farmers as a class.

Howard Ewbank, secretary of
the county organization, presented
to the farmers gathered at Milroy
the proposed plans and cited the
many things that the organization
has already done among which was
to present the farmers view on the
daylight saving law and secure its
repeal.

The solicitors expect to have seen
every farmer in their townships be-
fore September 19, the day on
which the drive will close.

In addition to the meetings pre-
viously announced, one has been
scheduled for Raleigh at 8 p. m.
Thursday, Sept. 18. The officers are
urging the farmers to attend these
meetings where speakers will ex-
plain the plans and purposes of the
organization.

Officers of the Indiana Federation
of Farmers' Associations, winding
up the last full week of the \$200,-
000 guarantee fund campaign, are
confident that September 19, the
quota day, will see the fund sub-
scribed. Meetings have been held
in all the counties of the state, and
a warm response made in the way
of organization. Farmers generally,
according to the Federation officers
who have been speaking at the or-
ganization meetings, pledge them-
selves gladly to help raise the fund
and make the Federation program
possible.

This program, according to an-
nouncement today at headquarters
in Indianapolis, is being justified by
current events. Farmers are getting
smaller prices for their stock, in the
face of the same high meat prices
paid by the consumer. The standard
wheat prices laid down by the Gov-
ernment are being trimmed by the
dealers at the expense of the farm-
ers, who have no protection ex-
cept organized action. These two
things alone, General Secretary
Lewis Taylor said today, would
make the Federation movement
worth while.

"They have come up to aggravate
the farming industry since we start-
ed forming the Federation, and they
have induced almost as many farm-
ers to join, as the original pro-
gram," he declared. "We started
out with plans to reform the mar-
keting system, to give ourselves a
square deal, to attack freight rate
discrimination, to bolster up the
county agriculture agent program,
and to protect ourselves against un-
fair and unwise legislation.

"These ideas appealed strongly,
but the two immediate problems of
Continued on Page Three

GLENWOOD SYSTEM PUT IN OPERATION

New Automatic Switchboard and Six
Telephones Are Installed in
The Town

NO EXCHANGE IS NECESSARY

Rushville Subscribers Must First
Dial Six and Then Number
Wanted in Glenwood

The switch board for the Glen-
wood automatic telephone exchange
has been installed and service today
was established to that place, which
means that the Glenwood system is
a part of the Rushville co-operative
system, and is free to all Rushville
subscribers. Today six phones had
been installed and more will be put
in operation next week.

In calling a Glenwood patron,
from Rushville, it is necessary to
first dial six, which connects the
phone with the Glenwood exchange,
and then dial the number which is
wanted in Glenwood. For instance,
Guy Newman's restaurant number is
13, which is the same as calling 613.

In calling Rushville, from Glen-
wood, it requires six figures, first
calling 01, then the number desired
in Rushville.

With the operation of the Glen-
wood system by the Rushville com-
pany, it means a greater saving in
time, and better service. The ser-
vice is just as good to Glenwood, as
it is in Rushville, and there is no
surface noise on the wires. Milroy
patrons may call from their ex-
change to Glenwood, and as they
are on the Rushville service, there
is no charge.

Next week more subscribers will
have phones put in, and the work
will be completed in the town, and
then the country lines will be taken
care of. The automatic phone used
in Glenwood, is of a later type than
the one used here, and is used only
on the switch board there. The local
company has several phones here
for the Glenwood office, and can
add customers over there, until the
supply is exhausted, and then a de-
lay will probably come.

Trouble has been experienced here
in getting telephones, and today
there is a waiting list of thirty, due
to the shortage of phones.

The names of the six persons in
Glenwood who have phones install-
ed, and who may now be reached
through their office are:

12, Charles Reed.

13, Newman's Restaurant.

14, Frank Stamm.

15, Lewark's Garage.

16, Little's grocery.

17, Isaac Baker.

THIEF TAKES PURSE FROM UNDER MATRESS

Mrs. Sarah Price, 222 West Second
Street, Does Not Discover Loss
Until This Morning.

NOTHING ELSE IS MOLESTED

Mrs. Sarah Price discovered this
morning, after making a search for
her pocketbook, that it was miss-
ing, and had evidently been taken
some time during last night. The
pocketbook contained between eight
and nine dollars, and was placed
under the mattress of her bed last
night, and this morning it was gone.

Mrs. Price, who lives at 222 West
Second street, stated that the robber
had probably gained an entrance
through the front door, as it was
not locked last night. Nothing else
was missing, and the other oc-
cupants of the house, Mr. and Mrs.
Will Havens, were also unmolested.

LARGE DELEGATION GOING

Program at Masonic Home by Pho-
enix Lodge Sunday at 2:30 P. M.

It seemed more than likely today,
with the weather remaining favor-
able, that Phoenix lodge of Masons,
of this city, would be represented by
a large delegation on the occasion
of the annual visit of the lodge to
the state home at Franklin tomor-
row. The trip will be made in auto-
mobiles. The program at the home
will begin at 2:30 p. m., with S. L.
Trabue presiding, and the Rev.
Clyde S. Black will make the ad-
dress. The music will consist of a
selection by a local quartet, a vocal
solo by Miss Mabel Cornwell and a
corner solo by Miss Vivian Harris.

NOT TO TAKE BACK POLICE WHO STRUCK

Boston Police Will Recruit New
Force Regardless of Willingness
of Strikers to Return.

MAN KILLED BY GUARDSMEN

(By United Press.)

Boston, Mass., Sept. 13.—Follow-
ing a conference with Governor
Coolidge at which officials of the
Central Labor Union and American
Federation of Labor were present,
John McInnes, president of the
striking police union, announced
this afternoon that the police are
willing to return to duty as indi-
viduals pending the outcome of the
labor conference at Washington.

Just previous to this statement,
Police Commissioner Curtis an-
nounced that the places of police,
whom he said, deserted their posts,
are vacant, and that he will recruit
a new force. The first serious dis-
turbance since Wednesday occurred
at noon today, when one man was
shot and killed by state guardsmen.
A woman who was standing near by
was struck in the knee by the bullet.

The striking police last night voted
to return to duty on the standing
they had before the strike. With
Governor Coolidge strongly opposed
to reinstatement of any of the po-
lice on the ground that in leaving
their posts they became deserters, it
was considered unlikely that the
authorities would grant concessions.

With normal conditions restored
and the situation controlled by the
state guards, the authorities today
turned their entire attention to seek-
ing a permanent solution.

RETAIL PRICES SOAR; WHOLESALE GOES DOWN

Government Departments Find Pro-
ducer is Receiving Less and the
Retailer More.

THIS DESPITE H. C. L. FIGHT

(By United Press.)

Washington, Sept. 13.—Retail food
prices went up during August and
are still mounting despite the gov-
ernment's campaign to reduce the
cost of living, according to price
figures collected by two government
departments covering practically
every section of the country.

At the same time both wholesale
prices and the price paid to prod-
ucers have dropped, the government
report indicates. In fifteen prin-
cipal cities retail prices were boosted
one-fifth of a cent to 8 cents per
sale unit on ham, sirloin steak, but-
ter, eggs, potatoes and pork chops,
according to preliminary reports to
the bureau of the labor department
for August.

During the same month the level
of prices paid producers and farm-
ers decreased 3.4 percent, accord-
ing to an announcement made by the
department.

ONE WEEK YET TO CERTIFY LEVIES

Twelve of Seventeen Taxing Units in
County File Proposed Tax Rates
With Auditor.

ALL ASK FOR MORE REVENUE.

This Makes Necessary Petition to
State Board of Tax Commis-
sioners For Permission

With only one week remaining un-
til the time limit will elapse when the
county auditor has to certify to the
state board of tax commissioners
the tax rates which have been fixed
by the taxing officials of the coun-
ty, only twelve levies have been
placed on file with the auditor, out
of a possible seventeen. Practically
all of the levies, although less than
this year's, will raise more revenue
than was derived from taxes this
year.

Under the new law, taxing offi-
cials have to petition the state board
for permission to raise more revenue
in any one fund. It is not known
whether this is being done in all of
the taxing units of the county
where it is necessary.

The Carthage tax levy for next
year is fixed at 47 cents—25 for the
electric light fund, 2 for the library
and 20 for the corporation, as com-
pared with a total levy of 88 cents
this year. The library fund was de-
creased only one cent, the corpora-
tion tax 30 cents and the light tax
ten cents. Valuations for next year
are \$1,043,515, and this year are
\$487,330.

The Posey township tax for next
year is put at 58 1/2 cents and this
year is 99 cents. The township tax
was cut from four to two cents, the
road from 28 to 12, the special
school tax from 35 to 22, the tuition
tax from 25 to 19, the township poor
tax from two to one and the library
tax from one to a half cent. The val-
uations for next year are \$5,885,173
as compared with \$1,922,765 this
year. The poll tax was made fifty
cents.

The Anderson township rate for
next year was fixed at 63 cents. This
year it is \$1.58. The township tax
was decreased from six to two
cents, the road tax from 20 to 12,
the special school bond tax from 23
to eight and a half, the tuition from
50 to 18, the township poor from
2 to one and a half and the library
from two to one. The poll tax was
fixed at \$1.25. Appraisements for
next year amounted to \$5,811,390
and for this year \$2,064,425.

The Center township rate for

AUTOMOBILE THIEF IS THWARTED TODAY

Discovered Cranking Clarence Car-
ney's Machine and is Fright-
ened Away by Owner

POLICE GIVEN DESCRIPTION

Plans of a burglar were thwarted
this morning, when Clarence Carney
was awakened upon hearing some-
one trying to start his automobile.
Mr. Carney left his machine in the
alley beside his house, at 117 West
9th street, and about three o'clock
this morning, heard someone trying
to crank it, and upon looking out
of his window, saw a man, who was
evidently getting ready to make his
escape with the machine.

Mr. Carney, knowing that he
wouldn't have time to get down to
the machine, yelled at the man, and
he ran. The police were called, and
a description was given, but it is not
thought likely that the man will be
apprehended.

PUBLIC SALE
General Farm Property and 40 Head Dairy Cows
Having rented both of my farms and retiring from the dairy business, I will sell at public auction all of my horses, farming implements and all of my dairy cows and heifers at my farm, 5 miles west of Greensburg, Indiana, and two miles southwest of Adams, on
THURSDAY, SEPTEMBER 18, 1919
the following property:
8 Head of Mares and Mules
Consisting of two spans of good mules and one span of extra fine black mares, six years old and weigh 3,000 pounds, a fine pair, nice driving mare, and one very fine yearling filly.
55 Head of Dairy Cows and Heifers
Consisting of selected lot of 52 milk cows 12 of which have calves at foot, some springers and some in full flow of milk. These cows are Jerseys, Holsteins and a few good milking Shorthorns, and are a splendid lot, having been selected in the last few years for their milk and butter fat qualities. Only one or two carrying any age, all sound bags except two. 12 extra nice young heifers, grade Jerseys and Holsteins. My herd bull, "Logan's Jolly Lad," a fine registered Jersey, will go in the sale.
A full line of farming implements, and harness. Lot of milk cans, De-Laval separator and other things incident to a well equipped dairy.
Do not confuse these cows with cows and heifers shipped in or picked up for sale for they are all good and have been in use in my dairy and all must sell to the highest bidder as I have QUIT and farms are now turned over to renters.
1,000 Pounds of P. E. Hog Powder.
TERMS MADE KNOWN DAY OF SALE.
Sale Begins at 10:00 Sharp. Lunch on Grounds

INDIANA QUOTA IS FIXED AT \$200,000
This Sum Will be Raised During Week of October 20-27 For Roosevelt Memorial
NO DUPLICATION OF EFFORT
Sum Also Includes \$27,500 to be Raised by Woman's Roosevelt Memorial Association
Indianapolis, Ind., Sept. 13.—Indiana's quota for the Roosevelt memorial campaign during the week of October 20-27 will be \$200,000. This was decided at the state conference held in Indianapolis, Thursday and includes \$27,500 as the state quota of the Woman's Roosevelt Memorial association, which plans to acquire, restore and maintain Theodore Roosevelt's birthplace in New York City.
It was at the suggestion of Mrs. Albert J. Beveridge, who has been appointed as chairman of the National Woman's Roosevelt Memorial association for Indiana, that the efforts of these two organizations be consolidated in one state campaign. Among the national officers of the women's organization are: Mrs. Leonard Wood, Mrs. Joseph H. Choate, Mrs. Elihu Root, Mrs. John Henry Hammond, Mrs. Henry A. Wise Wood, Mrs. A. Barton Hepburn, Mrs. William Fellows Morgan, Mrs. Jacob Riis, Mrs. Henry L. Stimson.

Mrs. Beveridge was made a member of the state woman's committee of the Roosevelt Memorial association by unanimous vote of the committee. Mrs. Linton A. Cox, of Indianapolis, chairman, has been in communication with Mrs. Beveridge, who is at Beverly Farm, Mass., for several days, relative to a consolidation of the two associations. This will eliminate all duplication of effort, and result in only one campaign.
A resolution introduced by Mrs. Hence Orme, of Southport, president of the Indiana Parent-Teachers association providing that the state board of education be requested to set aside Friday, October twenty-fourth as Americanization day in the public schools in honor of Theodore Roosevelt, was unanimously adopted by the conference.
The state board of education meets on Tuesday, September sixteenth and the matter will be presented at that time for approval. Linneaus N. Hines, state superintendent of public instructions, has been appointed chairman of the school committee and E. U. Graff, superintendent of Indianapolis public schools, has been appointed chairman of the program committee, which will prepare a suggestive plan for the observation of Americanization day in the schools.

ALBERT CURRY WINS CASE
Cancelled Check Discloses He Paid For Welding Torch
In the case of the Traylor Welding and Cutting company of Indianapolis, against Albert Curry, which was tried yesterday afternoon before Justice of Peace Stech, the evidence disclosed the fact that Curry was right in his contentions, and the costs were paid by the Indianapolis concern. They alleged that Curry had purchased a welding outfit, which was not paid for, and had been returned to them, and that a torch was not returned. The evidence disclosed that Curaray had paid for the torch, which was a separate transaction, and a cancelled bank check proved this to be the case.

ONE WEEK YET TO CERTIFY TAX LEVIES
Continued from Page One
next year will be 54 cents and a fifty-cent poll tax. The rate this year is \$1.09. The township tax was cut from six cents to two and a half, the road tax from 25 to 14, the special school tax from 35 to 18, the special school bond tax from 20 to 6, the tuition tax from 22 to 13 and the township poor from one to a half cent. Please compare these prices with other cars of quality and you will readily realize the unusual value of the Nash products.
Frank C. George
North of Court House.

year are \$4,417,355 as compared with \$1,819,830 this year.
The Washington township tax this year is \$1.25 and was put at 58 1/2 cents for next year. The township tax was decreased from eight cents to two and a half, the road tax from 32 to 20, the special school tax from 55 to 21 and the tuition tax from 30 to 15. Valuations this year \$1,567,225 and for next year are \$4,844,400.
Union township's rate for next year will be 64 cents and this year is \$1.19. The township tax was cut from ten cents to three cents, the road tax from 30 to 21, the special school fund tax from 50 to 15, tuition tax from 28 to 16 and the township poor tax was left at one cent. There was no school bond tax last year, but this year a levy of eight cents for this purpose was made. Valuations for 1920 are \$5,425,680 as compared with \$1,928,285.
Noble township's rate is \$1.04 this year and next year will be fifty cents, according to the levy fixed. The township tax was cut from six to three cents, the road tax from 22 to 12, the special school tax from 23 to 12, the tuition tax from 23 to 12 and the school bond tax from 30 to 10. A one-cent library tax was added. Valuations this year are \$1,676,540 and for next year are \$4,601,560.
Richland's rate for next year will be 37 cents as compared with 93 this year. The township tax was cut from ten cents to three, the road tax from 22 to 9 cents, the special school tax from 40 to 13, the tuition tax from 20 to 11 and the township poor tax from 3 to 1. Taxables are valued for next year at \$3,809,815 and for this year at \$1,268,690.
Walker's rate for next year was fixed at \$1.11 as compared with \$1.44. The township fund was reduced from four to three cents, the road tax from 25 to 15, the special school tax from 75 to 50, the tuition tax was left at 30 cents, a library tax of one cent was added, as also was a bond tax of 9 cents and a vocational tax of 3 cents.

The Rushville city, Rushville township and Rushville school city, the other units filing their levies with the auditor, have already been outlined.

The Massey-Harris Stands That Test as No Other Corn Binder Can
And the reason that it does is very clear. It has all of the desirable features found in the usual Corn Binder construction and in addition, has several exclusive ones that contribute much to its efficiency, outstanding among which is a wider range of adjustment for accommodating all heights and kinds of corn—an adjustment which can be operated with speed and accuracy. Whether the crop be the supple kaffir corn of the Southwest, the large, firm varieties of the Corn Belt, or the short growths mixed with grassy bottoms, this machine will harvest it in a way that will always please. Just keep that fact in mind and in connection with it consider the following which will show you conclusively why the Massey-Harris Corn Binder is the machine best suited to supply your needs.
IT IS BACKED BY NEARLY 70 YEARS EXPERIENCE IN IMPLEMENT BUILDING AND IS THE CULMINATION OF 16 YEARS OF STUDY AND DEVELOPMENT.

and, Ind., Sept. 13.—The lan for nationalization of oads was unanimously in y the United Mine workers ence here today, with only senting votes. More than egates voted.

BONE YARD FOR AUTOS MAINTAINED BY BAKER

Officials Testify That 2,588 Motor Trucks and 360 Ambulances Were Accumulated in Feb.

STILL REMAINED UNSOLD

Washington, Sept. 13.—That the War Department has maintained, at Camp Holabird, Maryland, a veritable "bone yard" for thousands of practically new army trucks, automobiles and ambulances, which were constantly increased by new machines delivered at intervals since the signing of the armistice, and which were permitted to remain exposed to the elements for more than six months without an attempt being made to sell them, has been developed in the hearings before the war investigation sub-committee of which Representative Reavis, of Nebraska, is chairman.

Officials of the War Department, who were called before the committee, testified that 2,588 motor trucks, 360 ambulances, and a large number of pleasure automobiles owned by the War Department were accumulated at Camp Holabird in February, presumably for the purpose of selling them to the public. The officers in charge of this great fleet of motor vehicles put them in condition for sale during that month, and notified the War Department to that effect.

"These machines were arranged out-of-doors in February," said Major R. C. V. Evans, "and they have remained exactly as arranged, ever since that time."

RAID SINN FEIN LEADERS

British Troops Act After Suppression of Irish Parliament

Dublin, Sept. 13.—Raids by British troops on the Sinn Fein organizations and the homes of their leaders continued in the southern part of Ireland today.

At Cork the home of David Kent, a member of the Sinn Fein parliament, was searched.

Bitterness over the government's proclamation suppressing the Irish parliament, caused the riots.

—Mrs. Lewis Fritz left this morning for a visit with relatives in Ladoga, Ind.

COAL PRODUCTION FURTHER DECREASED

Loss by Indiana Mines Last Week Occasioned Largely by Failure to Work Labor Day

CAR SHORTAGE ALSO BLAMED

Terre Haute, Ind., Sept. 13.—Production of coal by the Indiana field for the week ended September 6th amounted to 475,507 tons as against 487,945 tons for the preceding week, the mines working 72.47% of the time as against 60.19% for the preceding week. The loss in tonnage was occasioned largely by the fact that none of the mines were in operation on Labor day, the week thus having only five working days.

Largely because of this holiday also the car shortage from 29.23% to 16.99%. The tonnage lost on account of the car shortage was 124,854. The greatest car shortage was on the Big Four where it was 29.28% while the C. & E. I. had a shortage of 14.88%, the C. T. H. & S. E. 16.05%, the Monon 19.50% and the Pennsylvania 19.87%.

Local labor trouble also kept some mines from operating, the lost tonnage from this source being 5.18% which accounted for 35,910 tons. These figures are from the operation of mines, the full time hours of which would have been 7,221 and which operated 5,233 hours.

MANY FARMERS BECOME MEMBERS

Continued from Page One

meat and wheat marketing brought more farmers together than any other thing. We are helpless against the grain and stock dealers unless we organize, and organize strongly. Farmers everywhere are coming to us for advice and common counsel on these problems, and we are making progress even though the organization work is not finished and the working fund is not yet guaranteed. When we are in position to work as a unit against the grain and stock dealers, for instance, we will be able to take care of ourselves, and we will not suffer heavy losses on falling markets manipulated by speculators whose sole idea is to trim us with low prices and the consumer with high prices."

The last few days of the \$200,000 campaign will be devoted to final preparations for handling the subscriptions by county organizations. Several meetings are scheduled for the early days of next week, but Friday, the 19th, will be devoted to the actual work of obtaining and listing subscriptions. Headquarters workers were cheered yesterday by the receipt of news that Iowa and Michigan farmers are following Indiana's example. Michigan farmers are subscribing a \$200,000 fund, and in Iowa the amount sought is \$250,000.

PASS PROFTEERING BILL

Washington, Sept. 13.—The house bill extending the food control act to penalize profiteering, as requested by President Wilson and Attorney-General Palmer as a means of reducing the cost of living, was passed by the senate late yesterday and sent to conference.

An Apparent Conflict

There is an apparent conflict in the statements of President Wilson and Peyton C. March, chief of staff. While the president has been traveling about the country advising the people that it will never be necessary to send United States troops across the water if the league of nations covenant and the peace treaty are adopted, Gen. March has been testifying before the house military affairs committee to the effect that the president has approved the "big army" program of the general staff and Secretary Baker, which has been submitted to congress as the peace time plan of army reorganization. This program comprehends a huge standing army of more than a half million men and likewise provides for universal military training.

General March indicated that military authorities believed the large army program was necessary because of the unsettled conditions throughout the world. He said nothing about never sending the boys in khaki overseas. It is a cause for wonderment in congress what the administration proposes to do with the half million standing army which it wants to raise in this country.

"With the prevailing spirit of unrest throughout the world all nations must be on the alert", said General March. "Winston" Churchill has proposed an army for Great Britain of 800,000 men. France has the conscription system and can raise an army at once of any size. We suggest an army of 500,000 men with universal military training."

He said the yearly expenditure would not exceed \$900,000,000.

Secretary of War Baker in a recent speech at Philadelphia urged America's preparedness for the next war.

Blowing it In

There is a rather curious fallacy that promiscuous buying is a merit, because it "puts money into circulation". It is no fallacy at all that the rapid circulation of money promotes prosperity.

The former is simply an argument in favor of extravagance. The latter is an argument of industry.

Sap and Salt

By BERT MOSES

Your mind will improve faster if you stop arguing and begin to discuss.

It's a poor neighbor who doesn't know more about you than you know about yourself.

Learn to have fun without spending money, and you will have the secret of happiness.

Take a doctor's advice about what you should eat, and you won't need to take his medicines.

Hez Heck says: "Nobody has ever been able to say with authority what whiskers are good for."

Too many of us look through the microscope when we ought to be looking through the telescope.

It depends upon what you buy. If you use your savings to purchase a steam pleasure yacht that you do not want and can not afford, you are not really helping to keep the factory wheels revolving. You are diverting industry into the vicious activity of manufacturing useless things.

But if you put your money into bonds for the development of staple industries, you are promoting prosperity. Your money immediately hires workmen, pays them wages, and they in turn produce necessary commodities.

It is fairly simple. Yet millions of our countrymen are buying extravagantly and defending themselves by the claim that they are aiding construction. Day laborers are buying ten or fifteen dollar pairs of shoes, when five or six dollar shoes would look as well and wear as well. And multimillionaires, as has lately been learned, are making the same pair last for years by having them repeatedly repaired.

Perhaps that is why they are multimillionaires.

Perhaps what that Ohio State health official meant when he said that in order to live long a man must first get himself a wife was that no matter what the result life would seem long anyway.

Aeroplane passengers will be taxed 8 percent of their fare hereafter. You can't rise above the high cost of living in a flying machine.

There is opposition to trying the former kaiser in London. Well, there is Belgium, and Belgium could hardly give the former kaiser a worse trial than he gave Belgium.

Will the Railroad Brotherhoods consent to a few reservations, guaranteeing the autonomy of the United States.

Lord Northcliffe is drafting a home rule bill for Ireland. If he can draw one that will suit Ireland he is some statesman.

REDHEADS TO HOLD REUNION

"Sorrel Tops" From Every Part of Indiana Meet Sunday

Indianapolis, Ind., Sept. 13.—Redhead will buck redhead in athletics events at Broad Ripple park tomorrow when the Redhead Society of Indiana convene in annual reunion. The morning will be given over to games and in the afternoon Governor Goodrich and Fred Vannoy, democratic state chairman are scheduled to speak.

William J. Black, mayor of Anderson, and John F. Meeker, of Alexandria, organizers of the association say there will be "sorrel tops" there from every part of the state

VALUATION IS INCREASED

Shelbyville, Ind., Sept. 13.—The total valuation of property in Shelby county for purposes of taxation is \$72,936,285. This figure has been announced by Frank W. Fagel, county auditor, after certain increases, ordered by the state board of tax commissioners, had been added.

RAILROAD BILL HAS BEEN INTRODUCED

Senator Cummins Pleased With The Manner in Which The Bill is Received in Senate

KEEN INTEREST DISPLAYED

Measure Referred to Interstate Commerce Committee, Provisions To Settle Wage Disputes

Washington, Sept. 12.—Keen interest is being displayed in the Senate as well as in the House in the railroad bill which has just been introduced by Senator Cummins and which represents many weeks of work by a sub-committee of the Senate Interstate Commerce Committee whose members are Senators Cummins, Kellogg and Poindexter, Republicans and Robinson and Pomerene, Democrats. Demands for thousands of copies of the bill have reached Senators since the measure was introduced.

Following the usual formalities the bill has been referred to the Interstate Commerce Committee. It is his purpose to lose no time with the bill in the Committee and he has asked its members to meet daily as far as possible until the bill can be reported out. He hopes it will be reported back to the Senate before the end of this month.

Senator Cummins said today he was pleased with the manner in which the bill had been received in the Senate and elsewhere. He said it was inevitable there would be opposition to some of its features; he fully expected that when the bill was offered. The bill does not contain a guarantee of return to holders of railway securities and many of them are demanding a guarantee of 6 per cent. No real probability exists that any such guarantee at all were to be allowed it would be a low one not exceeding 4 or 4 1/2 per cent.

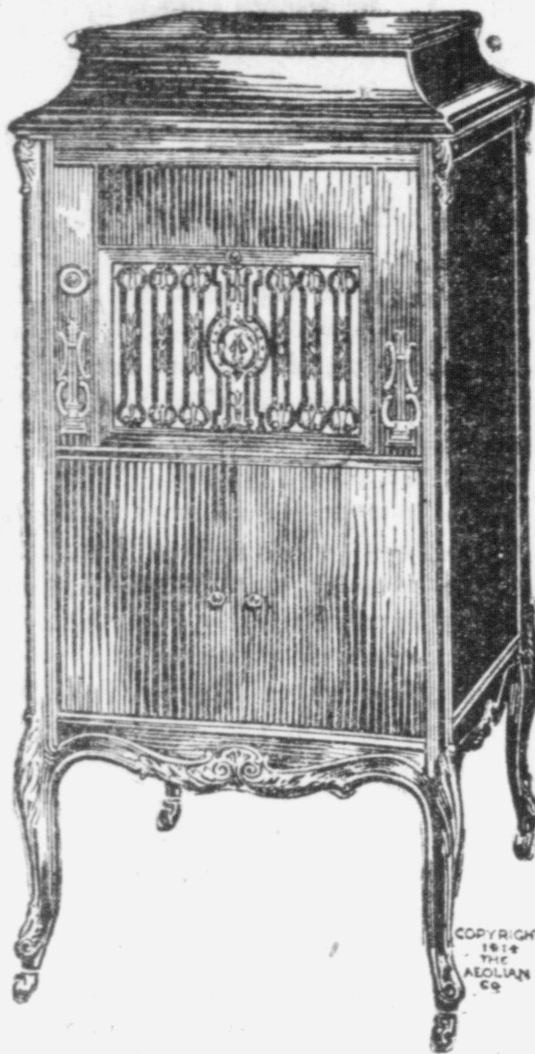

The provisions in the bill for the settlement of wage and labor disputes are attracting widespread notice. They are also being commented on both favorably and unfavorably. Some opposition is raised by leaders of the railroad employees to the idea in the bill that neither strikes by conspiracy or combination nor lockouts shall be permitted on the railroads in view of the machinery which is provided to settle wage and labor disputes. This opposition was anticipated. A sharp controversy will rage about this point. Senator Cummins, though he did not personally write this provision into the bill, is convinced the country wants to be relieved from the menace of a railroad tie-up. Moreover, he holds that while as a general proposition the right to strike should not be denied there is a difference between a strike by employees of a public utility when the Government has provided the machinery for adjustment of wage difficulties and kindred matters and given the employees large representation in that machinery. He holds there is a distinct line of demarcation between a strike on a publicly controlled public utility with public machinery to adjust wage disputes, and a strike against a private corporation.

HANSON WINS PROMOTION

Has Been Made Associate Director of Y. M. C. A. Work in France

Indianapolis, Ind., Sept. 13.—A. W. Hanson, formerly assistant secretary of the Indiana Y. M. C. A., has been made associate director of association work in France. Mr. Hanson's headquarters are in Paris and his work is connected entirely with extension plans among the civilian population. His promotion follows almost a year's activity with the French army where his long experience in Indiana and his grasp of Y fundamentals, together with his knowledge of French, resulted in his services being in great demand by the military authorities. Mr. Hanson recently made his first extemporaneous speech in French, a notable feat, as any member of the A. E. F. will testify.

Vocalion

The Last Word in Musical Instruments of the PHONOGRAPH Type.

A Phonograph made and perfected by a great Musical Instrument Organization.

Instrument Organization—THE AEOLIAN COMPANY Makers of the Pianola and the Steinway Baby Grand Pianos.

Why should not a Phonograph, made and backed by such an organization, produce better TONE QUALITY? It should—and it does. We'll be glad to have you make prove it to your entire satisfaction.

If you are a music lover, you will at once recognize Superior Tone in the playing of all makes of records. You know the New Aeolian Vocalion is the one standard phonograph that plays, successfully, all makes of disc records, with the same reproducer and with the same needle—starting and stopping the same Automatically.

We will be pleased to demonstrate this wonderful New Phonograph at any time.

We invite you to call at our show room and hear it when you are ready to buy or not.

We are always glad to show you.

Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

A farewell party at the Country Club in honor of "July the Dry" was so attractive to G. von B. Schultz, the town's prize physician on diseases of children, that when he was hastily summoned to the Wallingford-Reed mansion at three in the morning his brain was hanging in space, as it were. He entered the nursery like an automaton, with all the medicine he ever knew gone from him. A tearful social matron pointed to the feverish, tossing child of eight months. Doctor Schultz was by mere luck able to find a chair and his watch. As a fact he could see several children and watches. The child's pulse was booming along. It meant nothing to Schultz. He absently placed a finger on his own pulse and counted, and it was beating exactly the same as his own. The mother gulped for the verdict: "Oh, doctor, what is the matter with Gertrude?"

Schultz summoned a bluff, collected himself and said reprovingly: "Madam, I am surprised at you! The-er-baby is d-r-o-n-k."

Dried Apples and Pears Need Quick Preparation

U. S. DEPARTMENT OF AGRICULTURE

Late winter varieties of apples and pears are best for drying because they possess a higher sugar content than the early varieties. In many localities, however, there are plenty of summer apples this year, but few of the winter varieties. In this event, the summer varieties by all means should be dried because they make a dried product acceptable to the palate.

Apples intended for drying should be reasonably mature but not soft, according to specialists of the United States Department of Agriculture. Handle with care in picking and hauling so as to avoid bruising, as bruised spots become discolored and must be trimmed off to make a good-looking product. Apples discolor rapidly, so preparations must be made to get the peeled product into the evaporator as rapidly as possible after it is pared. If a number of people are doing the work, this may be accomplished by dividing the paring, coring, slicing and spreading on trays, so that an apple spends only two or three minutes on the way from the paring knife to the drier.

If only one person is working, drop the pared fruit either into cold water or into a salt solution made by dissolving one tablespoon of salt in 4 quarts of water. Do not allow the fruit to stand in the water any longer than is necessary, because the water will dissolve the sugar and other valuable elements and the apple will absorb water, which will necessitate longer drying in the evaporator. Carefully pare and trim the product to remove all discolored places. When a paring and coring machine is used, the apples, before being placed in it, should be worked over with a knife to remove all discolored spots.

Care should be taken when slicing by hand to make the slices as nearly the same thickness as possible. Three-sixteenths to one-fourth inch is the best thickness. Apples may be quartered or cut into eighths, but they do not dry as uniformly or as quickly as the sliced rings.

For an especially white product, blanch the fruit after it has been pared, cored and sliced by a short treatment of steam in order to prevent discoloration which otherwise result. Place a false bottom in the wash boiler 4 or 5 inches above the bottom and use a wire basket to rest on the false bottom. Put 3 or 4 inches of water in the boiler, place on the stove, cover boiler and allow water to boil. Place about 2 inches of sliced apples loosely in the wire basket, lower the basket into the boiler, taking care that the fruit does not get into actual contact with the water. Replace the lid and allow the fruit to stand in steam for 3 or 4 minutes. Remove and spread in a single layer on trays and place either in the sun or a warm drier. Apples when drying should be covered with muslin or mosquito netting to prevent insect infestation. A few minutes exposure will often cause the products to be infested.

Dried apples which are brown or chocolate colored from the discoloration which results from drying without blanching possess a high nutritive value and often have a better flavor than the more attractive-looking blanched products.

When apples are dried in an evaporator, start the drier at 130 degrees to 140 degrees, keeping this temperature until the fruit begins to wilt and becomes somewhat leathery, then increase the heat by moving the partially dried trays downward in the evaporator. The highest temperature that can be maintained or apples without danger of burning is 180 degrees. Examine the trays frequently, especially at the end of the drying period, in order that scorching or overheating may be avoided.

Dried apples will not be brittle when finished, but if a handful of the pieces are pressed together they will have an elastic, springy feel and will separate promptly when released, leaving no moisture on the hands. When one of the pieces is broken in two, it should not be possible to press moisture out of the center.

SOLDIERS MAY FISH WITHOUT A LICENSE

Stansbury Says Hard Rule Should
not be Adopted Requiring Them
To Carry Discharge Papers

NO LAW REQUIRES IT.

Ele Stansbury, attorney-general of Indiana, has advised George Mannfeld, chief of the fish and game division, state conservation commission, that the department should adopt no hard and fast rule requiring soldiers and sailors to carry their discharge papers with them or their service button when they hunt without license.

The attorney-general held that the world war soldiers and sailors have the privilege of hunting and fishing in Indiana without licenses in accordance with the 1919 law granting then rights already granted to soldiers of previous wars, and that there is nothing in the law that requires them to carry papers showing they are such and that proof of their being soldiers or sailors is another matter and not within the scope of the power of the commissioner.

Fish and game laws are held in the opinion to apply to soldiers and sailors as to others in each instance except that they may hunt and fish without having to take out licenses.

sible to press moisture out of the center.

Pear may be dried in the same way as apples. The fruit should be mature but not soft. "Sometime it is an advantage to store fruit a few days before preparing for the drier. For home use prepare pears for drying, by paring, splitting in quarters or eighths, coring and removing the stem. Work rapidly after peeling to avoid discoloration and use the same methods for preventing darkening as recommended for apples.

Dried pears, however, are brittle when sufficiently dried, instead of elastic like the dried apple. As soon as the dried pears or apples are taken from the drier place the fruit in a large wooden or pasteboard box which has been lined with newspapers. Cover with muslin to exclude insects and stir at intervals of a day or two, mixing the older portions thoroughly with each new lot. Keep the box in a warm, dry, dark room so that drying may slowly continue by loss of moisture in the warm atmosphere. Give the fruit ten days to two weeks of this treatment before placing it in permanent containers for storage.

WORK IN E. A. DEGREE

Amusements

"Two Gun Betty" at Mystic

"Two Gun Betty" with Bessie Barriscale in the leading role, will be the attraction tonight at the Mystic theater. In addition to this picture, a one reel Burley Q. comedy will be shown, and the entire program is particularly arranged to meet the approval of the Saturday night theater goers. The 15th episode of the "Red Glove" series will be shown at this theater on Monday night, and the comedy, "Call the Cop," will also be on the program.

"Shanghaied" at Princess

A Chaplin classic, "Shanghaied", which bears repetition, will be at the Princess theater tonight, together with "Jacques of The Silent North", in which Mitchell Lewis is starred. It is a thrilling story of the north woods.

Society girls who take life as one continual round of automobiles, parties and expensive frocks may get some new ideas of how to lavish wealth if they will see "The Hoodlum," starring Mary Pickford, produced by her and which will be seen beginning Monday at the Princess.

As Amy Burke, Miss Pickford depicts the part of a girl whose chief life problem is how to spend money. Amy's day begins with a lesson from a high-priced tutor who is awed by her vast wealth and consequently quite indifferent as to her education. Her other diversion is a high priced roadster which she pilots around with the speed of a race track marvel. Her wealthy but unscrupulous grandfather has also employed a groom who accompanies her on all auto excursions and whose advice she does not heed.

All of this luxury suddenly fades away showing Amy as a tenement girl whose real character is brought out when her devoted but poor father returns to town after a long absence. She prefers to live in a tenement with her father than to live in her grandfather's house without him. How a discovery made by Amy while living in the tenements aids her in restoring to respectability a man whom she loves and whom her grandfather has unjustly sent to the penitentiary makes a pleasing and interesting ending to this second of Miss Pickford's releases under the banner of First National.

Hoosier Corn Turner

2nd and Penn. R. R.
RUSHVILLE, IND.

Saves its cost in 3 days. Saves corn, time and labor. Fits any drill and can be attached in a few minutes. These turners will do the work in any kind of down or elbowed corn. Will make the drill run perfectly smooth. Will keep the outside discs from riding or getting on row of corn; roll the pumpkins out of way without injury.

Get your drill ready for Fall sowing by attaching one of these turners. A great quantity were sold last year and gave entire satisfaction.

The public is warned not to infringe or make these devices as we are fully protected by patent.

SMOKE WINGERTER'S FAIR PROMISE CIGAR

Society

Miss Cora Winship will be hostess for the S. E. T. club Tuesday afternoon at her home in East Fifth street.

Mr. and Mrs. Wayne Wellman gave as their guests this week the Franklin, Ind., entertained at dinner erton, Ind.

The Tri-Kappas will have initiation at the home of Miss Fanny Stiers south of the city Monday evening at 5:30 o'clock. Following the initiation the penny supper will be served and a business meeting will follow.

Mr. and Mrs. Sylvester McKibben of New Salem entertained at dinner Sunday the following guests, Mr. and Mrs. Herbert Holden, Mr. and Mrs. Wayne Wellman, Mr. and Mrs. J. W. McKibben, and Son Russell, the Rev. and Mrs. J. R. Stanton of Fowlerston and the Rev. and Mrs. H. Ross.

Mr. and Mrs. James Allison had as their dinner guests Sunday Mr. and Mrs. Albia Hurst, Mr. and Mrs. Will Brown, Mr. and Mrs. Will Brown, son Robert and daughter Eda, Mildred Woods and Lee Mitchell. A delicious three course dinner was served at high noon and late in the afternoon the hostess served watermelon.

Mr. and Mrs. George F. Ostrand, Mr. and Mrs. Robert Wilson and children Harold and Bobbie of Chicago, and Mrs. Charles Rogers of Browns Valley, Ind., were the guests of Mr. and Mrs. John English, southwest of the city, the latter part of this week. Mrs. English accompanied the former to Chicago where he will visit for a few days.

Mr. and Mrs. Will Jones of near ev. and Mrs. J. R. Stanton of Fow-hursday, Mr. and Mrs. Wayne

Wellman and Mrs. Mae Wellman of New Salem and the Rev. and Mrs. J. R. Stanton and daughter of Fowlerston. Mrs. Jones was formerly Miss Ollie Winship of this county. In the evening Mr. and Mrs. Gus Thomas of near Shelbyville entertained Mr. and Mrs. Jones and their guests.

The Willing Workers of the M. P. church of New Salem held their regular monthly business meeting Wednesday afternoon at the home of Mrs. Charles Gruell, north of New Salem, the hostesses being Mrs. Allie Gruell, Mrs. Bert West and Mrs. Charles Gruell. There were about thirty in attendance. After the business session a short program was rendered and refreshments of ice cream and cake were served.

Miss Nelle Baldwin, who is well known in this city, having taught Latin in the high school here, was the guest of honor at a party given by the Tri Kappas of Greenfield, Thursday evening. Miss Baldwin has recently returned from France where she was connected with the Y. M. C. A. work during the war. The party was given at the gun club quarters. The twelve dinner was the first thing on the program, which was followed by a number of games. Miss Baldwin will teach Latin in the Noblesville high school this year.

A reception was held last evening in the First United Presbyterian church in honor of Miss Mary E. Logan, who expects to return soon to India to take up work there as a missionary, under the care of the Woman's Board of Missions of the United Presbyterian church. Miss Logan has been in this country on a furlough for more than a year. The reception was largely attended by the people of the congregation and their friends. A brief program of music and talks by representatives of the various organizations of the church was carried out with Miss Mary Fisher presiding. At the close of the program the pastor, in behalf of the congregation, presented Miss Logan a gift in gold, in respect for their appreciation of her work. She responded in a brief talk. At the close of the social hour refreshments were served.

HERBERT HOOVER FAVORS THE LEAGUE

Continued from Page One

dia, of which Sir Alexander Cardew is chairman. The members will study reformatory and penal methods in this country preliminary to making radical changes in the penal system of India.

Others who came on the liner are Dr. John P. Andrews, secretary of the American Association for Labor Legislation, who has been in France and England for two months as technical adviser from the United States government to the committee of arrangements for the International ington next month, and Baron Joto ington next month, and Baron JJoto and members of the Japanese peace conference mission.

When the history of the war is finally written it will credit Hoover with a large part in the contest. The historian will also give him a large measure of credit for effective constructive work in Europe following the signing of the armistice.

A person who attempted to give Hoover full credit today would say that through his organization for feeding the hungry people of Europe Bolshevism was overcome.

When the United States entered the war Hoover was in London in charge of the relief work in Belgium. He had been engaged in superintending the distribution of food to the starving Belgians since early in 1914. He had been called from his home in California and from his profession, that of mining engineer, to take charge of this Belgian relief work. For more than two years before the United States entered the war the organization of which he was the head stood between the Belgium people and starvation.

When the United States entered the war against Germany Americans who were in Europe at that time were thrown into a near panic. They all desired to leave for home at once. Many of them were caught without ready money and were unable to obtain credit. In the great confusion that existed there was a call for leadership and Hoover went to the front as the leader.

4-MONTHS OLD BABY KILLED IN RUNAWAY

Mother and Two Other Children Seriously Hurt When Buggy Crashes Into Street Car

ACCIDENT IN INDIANAPOLIS

Indianapolis, Ind., Sept. 13.—A four-months-old baby is dead and the mother and two other children are in the City Hospital in a serious condition, as a result of injuries suffered Friday night when a horse hitched to a buggy in which the family was riding, ran away and crashed into a street car. The accident occurred in West Michigan street, near Caldwell street.

The occupants of the buggy were John Morgan, 648 Porter street, his wife, Mary Morgan; their three children, Mary, age one; Carl age two and Pauline, age four month, and Major Milburn, age four, 1058 Pershing avenue. The child died shortly after being removed to the hospital.

Within a short time he had made great headway in straightening out the tangle and in good time, through the operation of his plans, Americans were able to start home. In cases where they did not have money he saw that they obtained credit.

While he was in the midst of helping the Americans get out of Europe Hoover received a cablegram from President Wilson asking him to come to Washington at once and take charge of the food situation in this country. The cablegram explained that the President desired first of all that an inquiry be made into the existing available stocks of foodstuffs and into the costs and practices of the various food producing and distributing trades; that since the United States had entered the war it was imperative that hoarding of every kind be prevented and that production of food-stuffs be stimulated.

PERSHING ROYALLY GREETED

General Re-establishes A. E. F. Headquarters at Washington.

Washington, Sept. 13.—Gen. John J. Pershing today re-established headquarters of the American expeditionary forces at the war department, where more than two years ago he took up a task the results of which astounded the world, to him brought fame and to his country undying glory. Gen. Pershing was welcomed on his return to the national capital late yesterday with a fitting demonstration of gratitude to the man who led the American arms to victory in France.

At the headquarters where they began General Pershing and his staff will wind up the affairs of the greatest force for overseas operations ever organized in the history of the world.

Shouts from the crowds which packed the concourse of the Union Station welcomed General Pershing when he stepped from his special train yesterday.

EVIDENCE WILL BE PRESENTED AT ONCE

Marion County Grand Jury Will be Informed of Charges Against Indianapolis Negro

ACCUSED OF POLICE MURDER

Indianapolis, Ind., Sept. 13.—Evidence gathered by police and detectives to substantiate the charge of murder against Upshaw (Big Boy) Northington, colored, 711 Darnell street, accused as the slayer of Wade Hull, police sergeant, who was shot to death Wednesday night in a raid on a craps game at 216 Anderson street, was to be presented today to the Marion county grand jury.

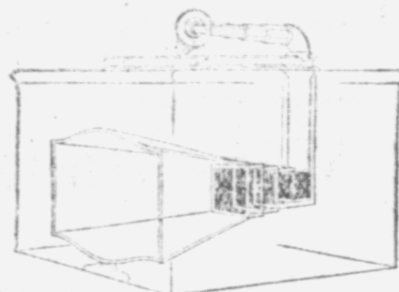

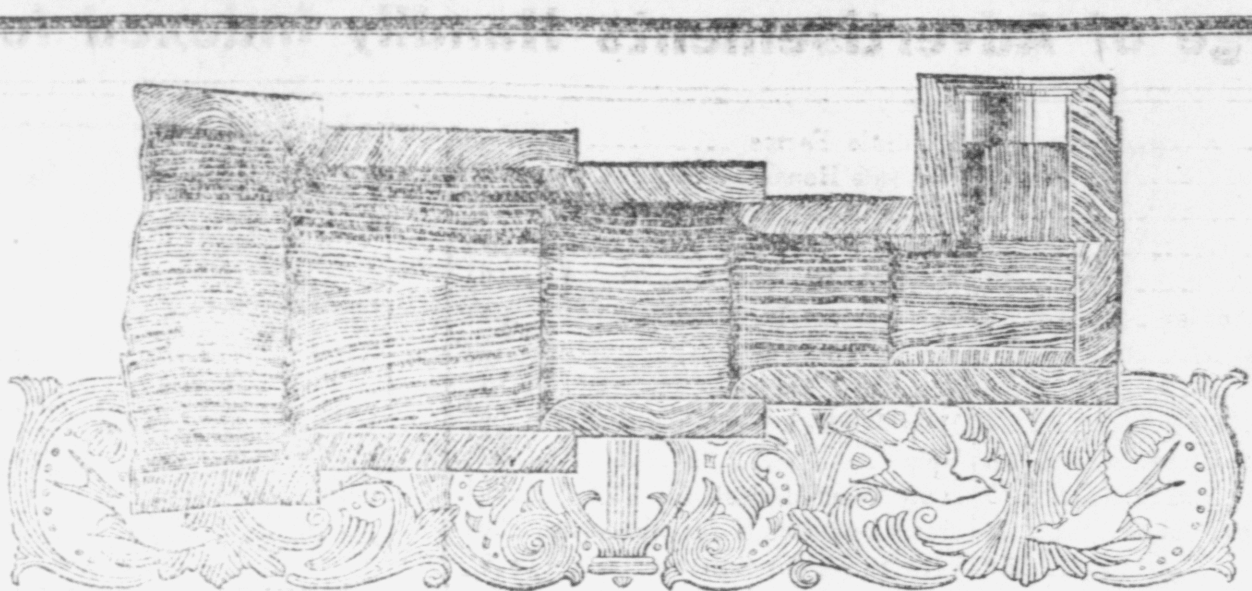

Detectives said they desired to get the evidence before the grand jury as quickly as possible that arrangements may be made for the reduction of the bonds of some of the witnesses, several of whom have families who are in need of their support.

Northington, whose nickname was given to him because of his gigantic stature, was the fourth man arrested, in the roundup of suspects following the murder of Sergeant Hull. He denied any knowledge of the shooting until late Friday afternoon, when he was confronted with the evidence gathered by the police and detectives and slated on a charge of murder.

A short time later he made a statement to detectives in which he admitted that he had a revolver in his hand at the time the police entered the house and that it was discharged just before he escaped. He said he did not know that he had hit any one.

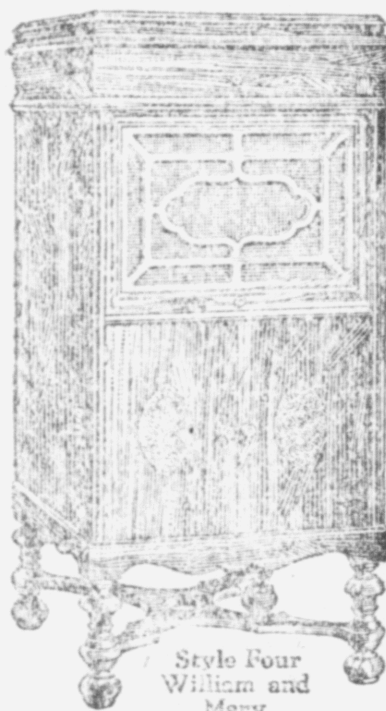

FARM BRINGS \$260 AN ACRE

The Theresa Goddard farm has been sold to Bert Miller for \$260 an acre. The farm consists of 80 acres and is located near Pleasant Ridge chapel.

The CHENEY PHONOGRAPH

Style Four William and Mary

The Cheney Organical Chambers

A Distinct Contribution To Music

The fundamental acoustic principles of the pipe organ have been adapted to the phonograph in the Cheney Organical Chambers.

Those chambers in the organ pipes which have made the pipe organ so rich and full add their mellow sweetness to tones as the Cheney reproduces records.

It is a wonderful advance in the art of reproducing music. Connoisseurs assure us that the series of exclusive inventions embodied in the Cheney constitute the greatest improvement since phonographs were invented.

Surely they have placed the Cheney in a class apart with tones of unrivalled clarity and pureness.

Cheney Period Cabinets in regular and art models are masterpieces, the pride of the most talented furniture craftsmen in the country.

Telephone Your Ads---2111

This page is read eagerly by over 5,000 readers daily. It is invaluable for merchants, farmers, professional men and all progressive people.

OUR RATES

All advertisements, except display, are charged for at the rate of one-half cent per word for each insertion.

We earnestly solicit these advertisements by telephone and expect payment when the collector calls. Ads mailed in should be accompanied by the remittance, as the amount is generally too small to justify bookkeeping.

Cards of Thanks and Obituaries are charged for at the same rate, minimum charge 25 cents. No charge accounts opened.

CLASSIFIED ADVERTISEMENTS ARE NOT TAKEN AFTER 10:00 A. M. FOR PUBLICATION ON THE SAME DAY.

More Money FOR Your Corn

If first left to dry in the field and then stored in a rat-proof, concrete corn crib, you can easily keep it dry all winter. Result: a better grade of corn, less spoilage and bigger profits.

Come in and talk it over. We'll be glad to help figure how big a crib you need, to show you plans of modern cribs and granaries and to estimate the cost of materials.

Capitol Lumber Co.

NOTICE OF FINAL SETTLEMENT OF ESTATE.

Notice is hereby given to the creditors, heirs and legatees of John K. Gowdy, deceased, to appear in the Rush Circuit Court, held at Rushville, Indiana, on the 13th day of September, 1919, and show cause, if any, why Final Settlement Accounts with the estate of said decedent should not be approved; and said heirs are notified to then and there make proof of heirship, and receive their distributive shares.

Witness, the Clerk of said Court, this 22d day of August, 1919.

LOREN MARTIN,
Clerk Rush Circuit Court.

ASSEMBLE NUCLEUS OF RED CROSS EXHIBIT

Gathered at Washington to Instruct Public and Preserve Materials Used on Fields of Mercy.

MANY CCME FROM EUROPE

The nucleus of a permanent Red Cross exhibit has been assembled at the National Headquarters of the American Red Cross in Washington for the instruction of the public and the preservation of interesting materials used on fields of mercy throughout the world.

Many boxes have come from all Europe for the exhibit, most of them containing gifts from people whom the Red Cross was able to help during the war. These gifts, however simple, are significant of a kindly feeling and the most touching gratitude, and will receive a place of honor in the museum.

There are documents of great value, photographs, badges and medals awarded to the Red Cross, uniforms, flags and equipments of Red Cross units overseas. Here also will probably be placed a series of eight paintings by Cameron Burnside, a lieutenant in Red Cross service.

It is hoped that the complete exhibit may be housed in a permanent building where it may tell the story of the Red Cross, and stand as a worthy and perpetual memorial to the devotion of millions of Red Cross workers—men, women and children—many of whom have given years of their lives to Red Cross work.

ADVISES THAT WHEAT SOWING BE DELAYED

U. S. Department of Agriculture Says There is Now Danger of Appearance of Hessian Fly

SUGGESTS ABOUT OCTOBER 1

The U. S. Department of Agriculture is advising that wheat sowing be delayed until late in September on account of the re-occurrence of the Hessian Fly.

A chart on the desirable dates of seeding recommends that wheat be sown in this latitude between the 29th. of September and the 9th of October.

The fly seems to come in waves. There has been no great damage from fly in this locality for a few years, but many farmers have found them in considerable numbers during the past year. This leads experts to expect another outbreak.

The fly lays its eggs on the early wheat and then dies. If the wheat is sown late the fly dies before the wheat comes up, and is reduced in numbers from year to year. Unless late seeding is practiced this pest will very likely increase in number again.

Boys' Suits — \$5 to \$20

She Wants to Help Others
Mrs. A. G. Wells, R. F. D. Rocky Mount, N. C. writes: "I cannot praise Foley Kidney Pills enough for the wonderful benefits I have derived from their use. Please publish this statement as I want the people everywhere to know of them." Lame back, sore muscles, puffiness under eyes, and an "always tired" feeling are indications that kidneys and bladder are not working properly. Foley Kidney Pills strengthen weak, disordered kidneys and bladder. F. B. JOHNSON Adv.

Simple Home Remedy Advised For Rose And Hay Fever

**Anyone Can Make a Pint For
Trifling Sum and Used In
Time May Prevent
Annual Attack**

"No matter how severe your yearly attack be, no matter how distressing or humiliating—its intensity can be reduced to a harmless, mildness," says a Kentucky druggist who believes from what he has seen that this simple home made remedy is a most important discovery. He has seen the most severe and apparently unconquerable cases reduced to what might be called a mild cold in twenty-four hours. In many cases where the patient started treatment a week or ten days before the expected attack the unwelcome yearly visitor failed to appear with anything like its usual intensity. People who want to try this new treatment can make a pint in a few minutes. Pour one ounce of Mentholized Arcline into a pint bottle then fill the bottle with water that has been boiled. Gargle daily as directed and sniff or spray the nostrils twice daily. That's all there is to the treatment which so many sufferers have found to be a true friend. Mentholized Arcline in one ounce vials is dispensed by all the better pharmacies.

FASCINATING TEETH

**How Every Woman Can Quickly
Charm Her Friends With
Lovely Teeth,
Clean, White and Brilliant**

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time. And the cost is so little. Just go to any drug or department store, and get a large tube of SENRECO TOOTH PASTE for 35 cents. Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of Pyorrhea and banish acidity in the mouth. It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

WORRIED ABOUT THE BIG CROWDS

**Cincinnati Reds Have Pennant
Cinched But the Redland Field
Won't Hold The Fans**

WILL SEAT ABOUT 25,000

**Suggested That Series be Played at
Speedway But This Don't Meet
The President's Approval**

(By United Press.)
New York, Sept. 13.—Cincinnati has practically cinched the National League pennant, but here are a lot of fans in the Ohio city who are worried about the world's series. There isn't a fan who doubts that the Reds will cop the flag, but there are hundreds of them who are fearful that they will not get to see the series.

Redland Field, the home grounds of the Moran crew will not hold the crowds, they claim. The park is far from a "cheese box" affair, as it has a seating capacity of about 25,000. But it has been filled to overflowing with Sunday crowds during every big series since the Cincinnati pride became a contender. In view of this fact the yard will never hold the world's series throng, the hags howl.

Suggestions were made to August Hermann, president of the Cincinnati club to stage the series in the mid-field of the Sharonville speedway, about fifteen miles outside of Cincinnati. It was pointed out that the stadium with a capacity of about 100,000 would be just the thing to accommodate every fan who wanted to see the big setto.

But the plan did not meet with the favor of the Red chief. Lack of sufficient transportation to the speedway and the difficulty of laying out a field perfect enough for the playing of the big classic were given as grounds for his disapproval.

Hermann has yet hasn't claimed victory for the team. "But if the Reds win they will play on their own grounds," he said.

TO PREACH AT LOCAL CHURCH

The Rev. John Orr of Middleport, Ohio, will preach Sunday at the First Presbyterian church, at the morning and evening services. The members of the congregation are asked to go and hear him. Sabbath school will be held at 9:15, and preaching at the usual hours.

WART THREATENS TO DAMAGE CROP

**Potato Growers Are Asked to be on
Lookout for Disease Which Will
Ruin Yield**

SIGNS OF THE MALADY.

**Potato Crop Last Year Amounted to
400,106,000 Bushels—Disease No-
ticed in Pennsylvania.**

The potato crop of the United States aggregating 400,106,000 bushels in 1918 and worth \$478,136,000 is endangered by a serious disease, the potato wart, which was discovered in Pennsylvania in September, 1918, and may occur elsewhere in the United States. Every one growing potatoes, either in a home garden or for sale, is especially urged to be on the lookout for this disease.

Wart is usually considered one of the most serious of potato diseases. It has caused great damage abroad during recent years, especially in England and Ireland, whence many of our imported potatoes have come. The parasite which causes the disease lives in the soil for many years, the severity of the disease apparently depending on the degree of infestation of the soil. Hence, in fields where potatoes follow potatoes in successive years or at frequent intervals the disease becomes steadily worse until it is impossible to raise sound tubers. In some gardens in Pennsylvania in the fall of 1918 the disease was so severe that the crop was practically a total loss.

The first evidence of wart are small, spongy outgrowths on the potato, especially at the eyes. These increase in size and may grow as large as the potato itself. Not infrequently a number of warts may arise at different places on the same tuber, causing the whole potato to become a spongy, warty mass. In the early stages the warts are light brown, the color becoming darker and finally black with age. Badly diseased potatoes decay in the field and those less seriously attacked are extremely susceptible to rot in storage. Wart does not kill the potato plant and seldom interferes seriously with the growth of the potato vines; therefore the detection of the disease is difficult or impossible before digging time.

The wide distribution of the potatoes imported from abroad in 1912 and in earlier years makes it possible that wart may have established itself in more than one locality in the United States. Hence, potato growers, potato dealers and potato users should be on the lookout for it in all parts of the country. Wart is easier to prevent than to control. It is highly important that all localities where it occurs be discovered as soon as possible, in order that proper measures may be taken to prevent its further spread and to eradicate it where present.

Keep watch at digging time for potatoes with warty outgrowths which are light brown when young, black and decayed when old. Report promptly all suspicious cases and send specimens to your county agent, or to the Plant Pathologist at the Purdue Experiment Station.

BANK PRESIDENT HAS 3 REMEDIES FOR H.C.L.

**Greater Production, Economy, and
Elimination of High Prices Will
Solve The Question**

CHARLES SABINS SPEAKS.

New York, Sept. 13—"Let's get to work", said President Charles Sabins, of the Guaranty Trust Company, of New York, emphasizing to the United Press today his opinion regarding the most vital problem confronting the country—the high cost of living.

Three remedies are available, he said: greater production; economy; and elimination of exorbitant prices.

Sabins bases his chief remedies on the reason that the basic causes of the high cost of living are—world shortage of necessities, extravagance and profiteering.

Milk Twice as Rich Ever at Your Call—Economical

We take rich milk from high-bred cows and remove over half of the water. This is done in a vacuum, at low heat.

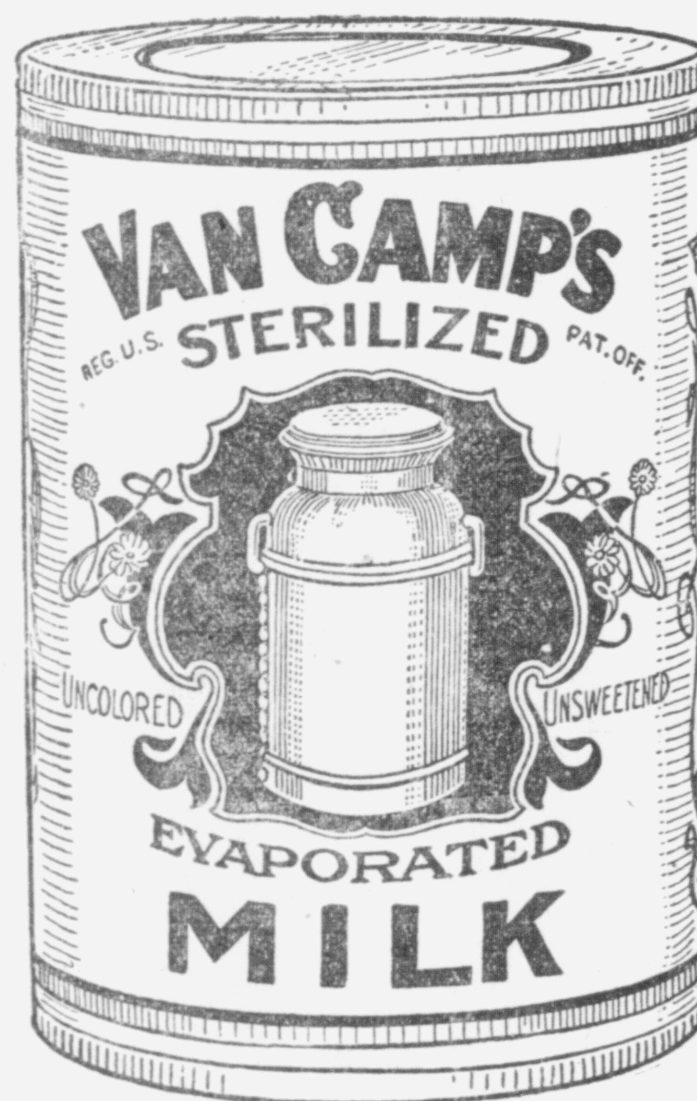

So Van Camp's is as thick as thick cream. You can even dilute it for coffee or ice cream. For cooking, dilute it still further.

Pasteurized Milk

Van Camp's is a sterilized milk. It is sterilized in the can after sealing. So it means a safe milk, a germless milk for drinking.

It comes from sanitary dairies, from inspected cows. All that science can do is here done to protect you.

It comes from healthy, high-bred cows, so the milk is a vitalized milk.

"The Cow in the Pantry"

There is no better milk produced in the world than the milk which you get in Van Camp's.

Reduces Milk Bills

The greatest saving comes in ending waste.

Open a small can or a large can, as you need. You never have too little milk, you never have too much. And you never have skimmed milk. Even for cooking you can have the full butter fat.

You will have better milk and lower milk bills—safer, cleaner, richer milk—when you adopt Van Camp's.

A Super-Grade

The Van Camp experts have worked 20 years to produce the finest milk in America. Every condition has been perfected.

It is condensed in the most scientific way.

If you use bottled milk, see how Van Camp's excels it. If you use other evaporated milk, try the Van Camp grade.

Millions of people have been won to Van Camp's. One trial can will win you.

Van Camp's Milk

Rich, whole milk reduced to double richness by low-heat evaporation

HERBERT HOOVER FAVORS THE LEAGUE

former Food Administrator, Back
From Europe, Says he is for
Covenant as it is.

PEACEY IS BUILT AROUND IT

James it Will Not Change Men's

(By United Press.)
New York, Sept. 13.—"I stand
the league of nations as it is,"
Herbert Hoover made this declar-
ation today when he returned to
America on the liner Aquitania from
Europe where he has been acting as
allied relief director.

This treaty is constructed around
theory of the league of nations
not on the theory of balance of
power," he declared.

There are more than thirty refer-
ences to the league of nations in
the treaty. The two are interde-
pendent," he added.

"I don't believe the league of na-
tions will change men's character
overnight," said Hoover.

"Very possibly nations will at-
tempt to make alliances and affect
balance of nations, although the
theory of nations is adopted, though
I believe they will be a failure," de-
clared Hoover.

With regard to the German in-
debtedness, no nation now knows
whether Germany can pay the
debt. But she can not unless she
offers credit with which to pur-
chase the raw materials in Amer-
ica and other nations."

"The delay in making peace," he
said, "has had a terrible result in
economic and social life of
Europe."

"The talk among all European
people is for peace. At the declara-
tion of the armistice, America had
supplied Europe with \$2,220,000,000
worth of supplies," Hoover said.

"During the next year this country
must supply Europe with 50 per
cent of its food necessities."

"Hoover predicted that the price of
foodstuffs in America soon will begin
fall."

With Mr. Hoover are his wife and
Allan. He will remain here for

MARRIED 31 YEARS; SUES FOR A DIVORCE

Samuel Buckner, Custodian of Court
Houses, Alleges Wife Was Quar-
relsome and Jealous.

ASTEFUL AND EXTRAVAGANT

After 31 years of married life, all
which is described as being un-
happy, Samuel Buckner today fil-
ed suit in circuit court against Letha
Buckner, asking that the court
grant him a divorce. Buckner says
that they were married in Shelby-
ville on December 17, 1888, and sepa-
rated July 4, this year.

Mr. Buckner, who is a colored
man, is custodian of the county
court houses. He alleges that his
wife was always quarrelsome and
wasteful, careless of her house-
hold duties, wasteful and extrava-
gant. He also says in the complaint
that she was insanely and unreason-
ably jealous without cause, which
made his life a burden, and that dur-
ing his entire married life he could
not even speak to another woman in
a friendly way, unless it would
cause trouble.

DEVELOPES INTO A FIGHT

Johnson's Campaign Ceases to be
Argument Against the League

(By United Press.)
St. Louis, Sept. 13.—Senator Hil-
lary Johnson's trip along the trail
of the president is rapidly taking
on more the nature of a fight than
an argument.

Encouraged by a crowd of 12,000
men and women which cheered him
for fifteen minutes in the big col-
iseum here last night, the senator's
reference to the peace treaty and
provisions of the league covenant
became sharper and more bitter than
in his previous speeches.

JURY GETS HORSE CASE AT 3 THIS AFTERNOON

Evidence in Note and Breach of
Warranty Suit is Concluded
in Circuit Court at Noon

STALLION ALLEGED UNSOUND

All the witnesses in the case of
Pratt vs Goldman were examined
this morning, and the arguments be-
gan this afternoon, and it was in
the hands of the jury by three
o'clock. Several witnesses were put
on the stand to testify that the
stallion purchased by Goldman was
unsound at the time the purchase
was made, and was not a breeder,
although the horse was intended to
be used as such.

The plaintiff introduced the evi-
dence this morning to show the
stallion was originally purchased by
the Pratts for \$3,000, and when
offered for sale to Harry Goldman,
was priced at only \$1,200, and it
was attempted to prove that some-
thing was evidently wrong with the
animal, or the price would not have
been cut.

A veterinarian testified as to the
physical condition of the animal.
The suit was to collect on a note
for breach of warranty, and in all
amounted to about \$1400. The date
of the sale was in 1913.

The grand jury has been called to
report on Tuesday, and it is ex-
pected that the original panel will
be used. It is not known what the
purpose of the grand jury will
be, but several people have been
summoned to appear on Tuesday
and Wednesday of next week.

OBJECTS TO LEAGUE BEING PARTY MATTER

President Wilson "Reads Riot Act"
To Anyone Injecting Politics
Into The Fight

SPEAKS AT TACOMA TODAY

(By United Press.)
Tacoma, Washington, Sept. 13.—
President Wilson today "read the
riot act" to anyone who tried to
make the league of nations fight a
party matter.

In a speech here he declared it
would be no part of the debate that
republicans suggested the idea of
the league of nations. He said he
was making that kind of a speech to
"read the riot act to anyone who
seeks to make this a party matter."

Wilson named Taft and Wicker-
sham as republicans who was work-
ing for the treaty.

If it fails, he warned, mothers
should weep for the child at her
breast, who will, when he is grown
to manhood, be called to the front.
He mentioned the children who came
to greet him and said he hoped that
they never would have to carry a
flag into battle.

President Wilson left here at noon
for Seattle, where he was to review
the Pacific fleet at 3 p. m.

MANY FARMERS BECOME MEMBERS

First Meetings in County Drive to
Last a Week, Are Held at Mil-
roy And Richland

SHOW VALUE OF ORGANIZING

T. A. Coleman and Howard Ewbank,
County Secretary, Emphasize
Necessity of Getting Together

The first meetings in the Rush
county drive for membership to the
farmers' organization were held at
Milroy and Richland yesterday eve-
ning. Both meetings were well at-
tended and great interest was mani-
fested. Practically every farmer
present asked for membership.

T. A. Coleman addressed the
meeting at Richland and explained
in a forceful way the necessity of a
good working organization. He
placed special emphasis on the nec-
essity of farmers being organized to
protect themselves against vicious
and unwise legislation, citing as
examples a number of attempts to
pass unwise legislation where indi-
vidual farmers representing no one
but themselves successfully lobbied
against the bills. These things, he
said, ought to be taken care of in
an organized way for they concern
farmers as a class.

Howard Ewbank, secretary of
the county organization, presented
to the farmers gathered at Milroy
the proposed plans and cited the
many things that the organization
has already done among which was
to present the farmers view on the
daylight saving law and secure its
repeal.

The solicitors expect to have seen
every farmer in their townships be-
fore September 19, the day on
which the drive will close.

In addition to the meetings pre-
viously announced, one has been
scheduled for Raleigh at 8 p. m.
Thursday, Sept. 18. The officers are
urging the farmers to attend these
meetings where speakers will ex-
plain the plans and purposes of the
organization.

Officers of the Indiana Federation
of Farmers' Associations, winding
up the last full week of the \$200,-
000 guarantee fund campaign, are
confident that September 19, the
quota day, will see the fund sub-
scribed. Meetings have been held
in all the counties of the state, and
a warm response made in the way
of organization. Farmers generally,
according to the Federation officers
who have been speaking at the or-
ganization meetings, pledge them-
selves gladly to help raise the fund
and make the Federation program
possible.

This program, according to an-
nouncement today at headquarters
in Indianapolis, is being justified by
current events. Farmers are getting
smaller prices for their stock, in the
face of the same high meat prices
paid by the consumer. The standard
wheat prices laid down by the Gov-
ernment are being trimmed by the
dealers at the expense of the farm-
ers, who have no protection ex-
cept organized action. These two
things alone, General Secretary
Lewis Taylor said today, would
make the Federation movement
worth while.

"They have come up to aggravate
the farming industry since we start-
ed forming the Federation, and they
have induced almost as many farm-
ers to join," as the original pro-
gram," he declared. "We started
out with plans to reform the mar-
keting system, to give ourselves a
square deal, to attack freight rate
discrimination, to bolster up the
county agriculture agent program,
and to protect ourselves against un-
fair and unwise legislation."

"These ideas appealed strongly
but the two immediate problems of
Continued on Page Three

GLENWOOD SYSTEM PUT IN OPERATION

New Automatic Switchboard and Six
Telephones Are Installed in
The Town

NO EXCHANGE IS NECESSARY

Rushville Subscribers Must First
Dial Six and Then Number
Wanted in Glenwood

The switch board for the Glen-
wood automatic telephone exchange
has been installed and service today
was established to that place, which
means that the Glenwood system is
a part of the Rushville co-operative
system, and is free to all Rushville
subscribers. Today six phones had
been installed and more will be put
in operation next week.

In calling a Glenwood patron,
from Rushville, it is necessary to
first dial six, which connects the
phone with the Glenwood exchange,
and then dial the number which is
wanted in Glenwood. For instance,
Guy Newman's restaurant number is
13, which is the same as calling 613.

In calling Rushville, from Glen-
wood, it requires six figures, first
calling 01, then the number desired
in Rushville.

With the operation of the Glen-
wood system by the Rushville com-
pany, it means a greater saving in
time, and better service. The serv-
ice is just as good to Glenwood, as
it is in Rushville, and there is no
surface noise on the wires. Milroy
patrons may call from their ex-
change to Glenwood, and as they
are on the Rushville service, there
is no charge.

Next week more subscribers will
have phones put in, and the work
will be completed in the town, and
then the country lines will be taken
care of. The automatic phone used
in Glenwood, is of a later type than
the one used here, and is used only
on the switch board there. The local
company has several phones here
for the Glenwood office, and can
add customers over there, until the
supply is exhausted, and then a de-
lay will probably come.

Trouble has been experienced here
in getting telephones, and today
there is a waiting list of thirty, due
to the shortage of phones.

The names of the six persons in
Glenwood who have phones install-
ed, and who may now be reached
through his office are:

- 12, Charles Reed.
- 13, Newman's Restaurant.
- 14, Frank Stamm.
- 15, Lewark's Garage.
- 16, Little's grocery.
- 17, Isaac Baker.

THIEF TAKES PURSE FROM UNDER MATRESS

Mrs. Sarah Price, 222 West Second
Street, Does Not Discover Loss
Until This Morning.

NOTHING ELSE IS MOLESTED

Mrs. Sarah Price discovered this
morning, after making a search for
her pocketbook, that it was miss-
ing, and had evidently been taken
some time during last night. The
pocketbook contained between eight
and nine dollars, and was placed
under the matress of her bed last
night, and this morning it was gone.

Mrs. Price, who lives at 222 West
Second street, stated that the robber
had probably gained an entrance
through the front door, as it was
not locked last night. Nothing else
was missing, and the other oc-
cupants of the house, Mr. and Mrs.
Will Havens, were also unmolested.

LARGE DELEGATION GOING

Program at Masonic Home by Pho-
enix Lodge Sunday at 2:30 P. M.

It seemed more than likely today,
with the weather remaining favor-
able, that Phoenix lodge of Masons,
of this city, would be represented by
a large delegation on the occasion
of the annual visit of the lodge to
the state home at Franklin tomor-
row. The trip will be made in auto-
mobiles. The program at the home
will begin at 2:30 p. m., with S. L.
Trabue presiding, and the Rev.
Clyde S. Black will make the ad-
dress. The music will consist of a
selection by a local quartet, a vocal
solo by Miss Mabel Cornwell and a
hornet solo by Miss Vivian Harris.

NOT TO TAKE BACK POLICE WHO STRUCK

Boston Police Will Recruit New
Force Regardless of Willingness
of Strikers to Return.

MAN KILLED BY GUARDSMEN

(By United Press.)

Boston, Mass., Sept. 13.—Follow-
ing a conference with Governor
Coolidge at which officials of the
Central Labor Union and American
Federation of Labor were present,
John McInnes, president of the
striking police union, announced
this afternoon that the police are
willing to return to duty as indi-
viduals pending the outcome of the
labor conference at Washington.

Just previous to this statement,
Police Commissioner Curtis an-
nounced that the places of police,
whom he said, deserted their posts,
are vacant, and that he will recruit
a new force. The first serious dis-
turbance since Wednesday occurred
at noon today, when one man was
shot and killed by state guardsmen.
A woman who was standing near by
was struck in the knee by the bullet.

The striking police last night voted
to return to duty on the standing
they had before the strike. With
Governor Coolidge strongly opposed
to reinstatement of any of the po-
lice on the ground that in leaving
their posts they became deserters, it
was considered unlikely that the
authorities would grant concessions.

With normal conditions restored
and the situation controlled by the
state guards, the authorities today
turned their entire attention to seek-
ing a permanent solution.

RETAIL PRICES SOAR; WHOLESALE GOES DOWN

Government Departments Find Pro-
ducer is Receiving Less and the
Retailer More.

THIS DESPITE H. C. L. FIGHT

(By United Press.)

Washington, Sept. 13.—Retail food
prices went up during August and
are still mounting despite the gov-
ernment's campaign to reduce the
cost of living, according to price
figures collected by two government
departments covering practically
every section of the country.

At the same time both wholesale
prices and the price paid to produc-
ers have dropped, the government
report indicates. In fifteen prin-
cipal cities retail prices were boosted
one-fifth of a cent to 8 cents per
sale unit on ham, sirloin steak, but-
ter, eggs, potatoes and pork chops,
according to preliminary reports to
the bureau of the labor department
for August.

During the same month the level
of prices paid producers and farm-
ers decreased 3.4 percent, accord-
ing to an announcement made by the
department.

ONE WEEK YET TO CERTIFY LEVIES

Twelve of Seventeen Taxing Units in
County File Proposed Tax Rates
With Auditor.

ALL ASK FOR MORE REVENUE.

This Makes Necessary Petition to
State Board of Tax Commis-
sioners For Permission

With only one week remaining un-
til the time limit will elapse when the
county auditor has to certify to the
state board of tax commissioners
the tax rates which have been fixed
by the taxing officials of the coun-
ty, only twelve levies have been
placed on file with the auditor, out
of a possible seventeen. Practically
all of the levies, although less than
this year's, will raise more revenue
than was derived from taxes this
year.

Under the new law, taxing offi-
cials have to petition the state board
for permission to raise more revenue
in any one fund. It is not known
whether this is being done in all of
the taxing units of the county
where it is necessary.

The Carthage tax levy for next
year is fixed at 47 cents—25 for the
electric light fund, 2 for the library
and 20 for the corporation, as com-
pared with a total levy of 88 cents
this year. The library fund was de-
creased only one cent, the corpora-
tion tax 30 cents and the light tax
ten cents. Valuations for next year
are \$1,043,513, and this year are
\$487,330.

The Posey township tax for next
year is put at 58 1/2 cents and this
year is 99 cents. The township tax
was cut from four to two cents, the
road from 28 to 12, the special
school tax from 35 to 22, the tuition
tax from 25 to 19, the township poor
tax from two to one and the library
tax from one to a half cent. The val-
uations for next year are \$5,885,173
as compared with \$1,922,765 this
year. The poll tax was made fifty
cents.

The Anderson township rate for
next year was fixed at 63 cents. This
year it is \$1.58. The township tax
was decreased from six to two
cents, the road tax from 20 to 12,
the special school tax from 55 to 20,
the special school bond tax from 23
to eight and a half, the tuition from
50 to 18, the township poor from
2 to one and a half and the library
from two to one. The poll tax was
fixed at \$1.25. Appraisements for
next year amounted to \$5,811,390
and for this year \$2,064,425.

The Center township rate for

AUTOMOBILE THIEF IS THWARTED TODAY

Discovered Cranking Clarence Car-
ney's Machine and is Fright-
ened Away by Owner

POLICE GIVEN DESCRIPTION

Plans of a burglar were thwarted
this morning, when Clarence Carney
was awakened upon hearing some-
one trying to start his automobile.
Mr. Carney left his machine in the
alley beside his house, at 117 West
9th street, and about three o'clock
this morning, heard someone trying
to crank it, and upon looking out
of his window, saw a man, who was
evidently getting ready to make his
escape with the machine.

Mr. Carney, knowing that he
wouldn't have time to get down to
the machine, yelled at the man, and
he ran. The police were called, and
a description was given, but it is not
thought likely that the man will be
apprehended.

PUBLIC SALE
General Farm Property and 40 Head Dairy Cows
Having rented both of my farms and retiring from the dairy business, I will sell at public auction all of my horses, farming implements and all of my dairy cows and heifers at my farm, 5 miles west of Greensburg, Indiana, and two miles southwest of Adams, on
THURSDAY, SEPTEMBER 18, 1919
the following property:
8 Head of Mares and Mules
Consisting of two spans of good mules and one span of extra fine black mares, six years old and weigh 3,000 pounds, a fine pair, nice driving mare, and one very fine yearling filly.
55 Head of Dairy Cows and Heifers
Consisting of selected lot of 52 milk cows 12 of which have calves at foot, some springers and some in full flow of milk. These cows are Jerseys, Holsteins and a few good milking Shorthorns, and are a splendid lot, having been selected in the last few years for their milk and butter fat qualities. Only one or two carrying any age, all sound bays except two, 12 extra nice young heifers, grade Jerseys and Holsteins. My herd bull, "Logan's Jolly Lad," a fine registered Jersey, will go in the sale.
A full line of farming implements and harness. Lot of milk cans, De-Laval separator and other things incident to a well equipped dairy.
Do not confuse these cows with cows and heifers shipped in or picked up for sale for they are all good and have been in use in my dairy and will sell to the highest bidder as I have QUILT and farms are now returned over to renters.

INDIANA QUOTA IS FIXED AT \$200,000
This Sum Will be Raised During Week of October 20-27 For Roosevelt Memorial
NO DUPLICATION OF EFFORT
Sum Also Includes \$27,500 to be Raised by Woman's Roosevelt Memorial Association
Indianapolis, Ind., Sept. 13.—Indiana's quota for the Roosevelt memorial campaign during the week of October 20-27 will be \$200,000. This was decided at the state conference held in Indianapolis, Thursday and includes \$27,500 as the state quota of the Woman's Roosevelt Memorial association, which plans to acquire, restore and maintain Theodore Roosevelt's birthplace in New York City.
It was at the suggestion of Mrs. Albert J. Beveridge, who has been appointed as chairman of the National Woman's Roosevelt Memorial association for Indiana, that the efforts of these two organizations be consolidated in one state campaign. Among the national officers of the women's organization are: Mrs. Leonard Wood, Mrs. Joseph H. Choate, Mrs. Eliza Root, Mrs. John Henry Hammond, Mrs. Henry A. Wise Wood, Mrs. A. Barton Hepburn, Mrs. William Fellows Morgan, Mrs. Jacob Riis, Mrs. Henry L. Stinson.
Mrs. Beveridge was made a member of the state woman's committee of the Roosevelt Memorial association by unanimous vote of the committee. Mrs. Linton A. Cox, of Indianapolis, chairman, has been in communication with Mrs. Beveridge, who is at Beverly Farm, Mass., for several days, relative to a consolidation of the two associations. This will eliminate all duplication of effort, and result in only one campaign.
A resolution introduced by Mrs. Hence Orme, of Southport, president of the Indiana Parent-Teachers association providing that the state board of education be requested to set aside Friday, October twenty-fourth as Americanization day in the public schools in honor of Theodore Roosevelt, was unanimously adopted by the conference.
The state board of education meets on Tuesday, September sixteenth and the matter will be presented at that time for approval. Linnaeus N. Hines, state superintendent of public instructions, has been appointed chairman of the school committee and E. U. Graff, superintendent of Indianapolis public schools, has been appointed chairman of the program committee, which will prepare a suggestive plan for the observation of Americanization day in the schools.
ALBERT CURRY WINS CASE
Cancelled Check Discloses No Paid For Welding Torch
In the case of the Traylor Welding and Cutting company of Indianapolis, against Albert Curry, which was tried yesterday afternoon before Justice of Peace Steeb, the evidence disclosed the fact that Curry was right in his contentions, and the costs were paid by the Indianapolis concern. They alleged that Curry had purchased a welding outfit, which was not paid for, and had been returned to them, and that a torch was not returned. The evidence disclosed that Curry had paid for the torch, which was a separate transaction, and a cancelled bank check proved this to be the case.
ONE WEEK YET TO CERTIFY TAX LEVIES
Continued from Page One
next year will be 54 cents and a five-cent poll tax. The rate this year is \$1.09. The township tax was cut from six cents to two and a half, the road tax from 25 to 15, the special school tax from 35 to 18, the special school bond tax from 20 to 6, the tuition tax from 22 to 13 and the township poor tax from one to five cents.

Nash Largest and Most Complete Exhibit at State Fair Auto Show
Did you see the NASH display at the State Fair? If you did you already realize the quality and quantity production of the Nash Motors Co. of Kenosha, Wisconsin.
The cut out chassis shown there made clear the working parts of the wonderful perfected valve-in-head Nash motor.
The following models were exhibited:
Nash Six Five Passenger Touring \$1490
Nash Six Seven Passenger Touring \$1640
Nash Six Four Passenger Sport Model \$1595
Nash Six Three Passenger Roadster \$1490
Nash Six Seven Passenger Sedan \$2575
Nash Six Four Passenger Coupe \$2350
Nash Truck One Ton \$1650
Nash Truck Two Ton \$2250
Nash Quad (4 wheel drive) \$3250
Prices F. O. B. Factory
Please compare these prices with other cars of quality and you will readily realize the unusual value of the Nash products.
Frank C. George
North of Court House.

year are \$4,417,355 as compared with \$1,819,830 this year.
The Washington township tax this year is \$1.25 and was put at 58 1/2 cents for next year. The township tax was decreased from eight cents to two and a half, the road tax from 32 to 20, the special school tax from 55 to 21 and the tuition tax from 30 to 15. Valuations this year \$1,567,225 and for next year are \$4,841,400.
Union township's rate for next year will be 64 cents and this year is \$1.19. The township tax was cut from ten cents to three cents, the road tax from 30 to 21, the special school fund tax from 50 to 15, tuition tax from 28 to 16 and the township poor tax was left at one cent. There was no school bond tax last year, but this year a levy of eight cents for this purpose was made. Valuations for 1920 are \$5,425,680 as compared with \$1,928,285.
Noble township's rate is \$1.04 this year and next year will be fifty cents, according to the levy fixed. The township tax was cut from six to three cents, the road tax from 22 to 12, the special school tax from 23 to 12, the tuition tax from 23 to 12 and the school bond tax from 30 to 10. A one-cent library tax was added. Valuations this year are \$1,676,540 and for next year are \$4,601,560.
Richland's rate for next year will be 37 cents as compared with 93 this year. The township tax was cut from ten cents to three, the road tax from 22 to 9 cents, the special school tax from 40 to 13, the tuition tax from 20 to 11 and the township poor tax from 8 to 1. Taxables are valued for next year at \$3,809,815 and for this year at \$1,268,690.
Walker's rate for next year was fixed at \$1.11 as compared with \$1.44. The township fund was reduced from four to three cents, the road tax from 25 to 15, the special school tax from 75 to 50, the tuition tax was left at 30 cents, a library tax of one cent was added, as also was a bond tax of 9 cents and a vocational tax of 3 cents.
The Rushville city, Rushville township and Rushville school city, the other units filing their levies with the auditor, have already been outlined.

The Massey-Harris Stands That Test as No Other Corn Binder Can
And the reason that it does is very clear. It has all of the desirable features found in the usual Corn Binder construction and in addition, has several exclusive ones that contribute much to its efficiency, outstanding among which is a wider range of adjustment for accommodating all heights and kinds of corn—an adjustment which can be operated with speed and accuracy. Whether the crop be the supple kafir corn of the Southwest, the large, firm varieties of the Corn Belt, or the short growths mixed with grassy bottoms, this machine will harvest it in a way that will always please. Just keep that fact in mind and in connection with it consider the following which will show you conclusively why the Massey-Harris Corn Binder is the machine best suited to supply your needs.
IT IS BACKED BY NEARLY 70 YEARS EXPERIENCE IN IMPLEMENT BUILDING AND IS THE CULMINATION OF 16 YEARS OF STUDY AND DEVELOPMENT.

BONE YARD FOR AUTOS MAINTAINED BY BAKER

Officials Testify That 2,588 Motor Trucks and 360 Ambulances Were Accumulated in Feb.

STILL REMAINED UNSOLD

Washington, Sept. 13.—That the War Department has maintained, at Camp Holabird, Maryland, a veritable "bone yard" for thousands of practically new army trucks, automobiles and ambulances, which were constantly increased by new machines delivered at intervals since the signing of the armistice, and which were permitted to remain exposed to the elements for more than six months without an attempt being made to sell them, has been developed in the hearings before the war investigation sub-committee of which Representative Reavis, of Nebraska, is chairman.

Officials of the War Department, who were called before the committee, testified that 2,588 motor trucks, 360 ambulances, and a large number of pleasure automobiles owned by the War Department were accumulated at Camp Holabird in February, presumably for the purpose of selling them to the public. The officers in charge of this great fleet of motor vehicles put them in condition for sale during that month, and notified the War Department to that effect.

"These machines were arranged out-of-doors in February," said Major R. C. V. Evans, "and they have remained exactly as arranged, ever since that time."

RAID SINN FEIN LEADERS

British Troops Act After Suppression of Irish Parliament

Dublin, Sept. 13.—Raids by British troops on the Sinn Fein organizations and the homes of their leaders continued in the southern part of Ireland today.

At Cork the home of David Kent, a member of the Sinn Fein parliament was searched.

Bitterness over the government's proclamation suppressing the Irish parliament, caused the riots.

—Mrs. Lewis Fritz left this morning for a visit with relatives in Ladoga, Ind.

COAL PRODUCTION FURTHER DECREASED

Loss by Indiana Mines Last Week Occasioned Largely by Failure to Work Labor Day

CAR SHORTAGE ALSO BLAMED

Terre Haute, Ind., Sept. 13.—Production of coal by the Indiana field for the week ended September 6th amounted to 473,507 tons as against 487,945 tons for the preceding week, the mines working 72.47% of the time as against 60.19% for the preceding week. The loss in tonnage was occasioned largely by the fact that none of the mines were in operation on Labor day, the week thus having only five working days.

Largely because of this holiday also the car shortage from 20.23% to 16.99%. The tonnage lost on account of the car shortage was 124,854. The greatest car shortage was on the Big Four where it was 29.28% while the C. & E. I. had a shortage of 14.88%, the C. T. H. & S. E. 16.05%, the Monon 19.50% and the Pennsylvania 19.87%.

Local labor trouble also kept some mines from operating, the lost tonnage from this source being 5,185 which accounted for 35,910 tons. These figures are from the operation of mines, the full time hours of which would have been 7,221 and which operated 5,233 hours.

MANY FARMERS BECOME MEMBERS

Continued from Page One

meat and wheat marketing brought more farmers together than any other thing. We are helpless against the grain and stock dealers unless we organize, and organize strongly. Farmers everywhere are coming to us for advice and common counsel on these problems, and we are making progress even though the organization work is not finished and the working fund is not yet guaranteed. When we are in position to work as a unit against the grain and stock dealers, for instance, we will be able to take care of ourselves, and we will not suffer heavy losses on falling markets manipulated by speculators whose sole idea is to trim us with low prices and the consumer with high prices."

The last few days of the \$200,000 campaign will be devoted to final preparations for handling the subscriptions by county organizations. Several meetings are scheduled for the early days of next week, but Friday, the 19th, will be devoted to the actual work of obtaining and listing subscriptions. Headquarters workers were cheered yesterday by the receipt of news that Iowa and Michigan farmers are following Indiana's example. Michigan farmers are subscribing a \$200,000 fund, and in Iowa the amount sought is \$250,000.

PASS PROFTEERING BILL

Washington, Sept. 13.—The house bill extending the food control act to penalize profiteering, as requested by President Wilson and Attorney-General Palmer as a means of reducing the cost of living, was passed by the senate late yesterday and sent to conference.

An Apparent Conflict

There is an apparent conflict in the statements of President Wilson and Peyton C. March, chief of staff. While the president has been traveling about the country advising the people that it will never be necessary to send United States troops across the water if the league of nations covenant and the peace treaty are adopted, Gen. March has been testifying before the house military affairs committee to the effect that the president has approved the "big army" program of the general staff and Secretary Baker, which has been submitted to congress as the peace time plan of army reorganization. This program comprehends a huge standing army of more than a half million men and likewise provides for universal military training.

General March indicated that military authorities believed the large army program was necessary because of the unsettled conditions throughout the world. He said nothing about never sending the boys in khaki overseas. It is a cause for wonderment in congress what the administration proposes to do with the half million standing army which it wants to raise in this country.

"With the prevailing spirit of unrest throughout the world all nations must be on the alert," said General March. "Winston" Churchill has proposed an army for Great Britain of \$900,000 men. France has the conscription system and can raise an army at once of any size. We suggest an army of 500,000 men with universal military training."

He said the yearly expenditure would not exceed \$900,000,000.

Secretary of War Baker in a recent speech at Philadelphia urged America's preparedness for the next war.

Blowing it In

There is a rather curious fallacy that promiscuous buying is a merit, because it "puts money into circulation". It is no fallacy at all that the rapid circulation of money promotes prosperity.

The former is simply an argument in favor of extravagance. The latter is an argument of industry.

REDHEADS TO HOLD REUNION

"Sorrel Tops" From Every Part of Indiana Meet Sunday

Indianapolis, Ind., Sept. 13.—Redhead will buck redhead in athletics events at Broad Ripple park tomorrow when the Redhead Society of Indiana convene in annual reunion. The morning will be given over to games and in the afternoon Governor Goodrich and Fred Vannoy, democratic state chairman are scheduled to speak.

William J. Black, mayor of Anderson, and John F. Meeker, of Alexandria, organizers of the association say there will be "sorrel tops" there from every part of the state.

VALUATION IS INCREASED

Shelbyville, Ind., Sept. 13.—The total valuation of property in Shelby county for purposes of taxation is \$72,936,285. This figure has been announced by Frank W. Fagel, county auditor, after certain increases, ordered by the state board of tax commissioners, had been

RAILROAD BILL HAS BEEN INTRODUCED

Senator Cummins Pleased With The Manner in Which The Bill is Received in Senate

KEEN INTEREST DISPLAYED

Measure Referred to Interstate Commerce Committee, Provisions To Settle Wage Disputes

Washington, Sept. 12.—Keen interest is being displayed in the Senate as well as in the House in the railroad bill which has just been introduced by Senator Cummins and which represents many weeks of work by a sub-committee of the Senate Interstate Commerce Committee whose members are Senators Cummins, Kellogg and Poindexter, Republicans and Robinson and Pomerene, Democrats. Demands for thousands of copies of the bill have reached Senators since the measure was introduced.

Following the usual formalities the bill has been referred to the Interstate Commerce Committee. It is his purpose to lose no time with the bill in the Committee and he has asked its members to meet daily as far as possible until the bill can be reported out. He hopes it will be reported back to the Senate before the end of this month.

Senator Cummins said today he was pleased with the manner in which the bill had been received in the Senate and elsewhere. He said it was inevitable there would be opposition to some of its features: he fully expected that when the bill was offered. The bill does not contain a guarantee of return to holders of railway securities and many of them are demanding a guarantee of 6 per cent. No real probability exists that any such guarantee at all were to be allowed it would be a low one not exceeding 4 or 4 1/2 per cent.

The provisions in the bill for the settlement of wage and labor disputes are attracting widespread notice. They are also being commented on both favorably and unfavorably. Some opposition is raised by leaders of the railroad employees to the idea in the bill that neither strikes by conspiracy or combination nor lockouts shall be permitted on the railroads in view of the machinery which is provided to settle wage and labor disputes. This opposition was anticipated. A sharp controversy will rage about this point. Senator Cummins, though he did not personally write this provision into the bill, is convinced the country wants to be relieved from the menace of a railroad tie-up. Moreover, he holds that while as a general proposition the right to strike should not be denied there is a difference between a strike by employees of a public utility when the Government has provided the machinery for adjustment of wage difficulties and kindred matters and given the employees large representation in that machinery. He holds there is a distinct line of demarcation between a strike on a publicly controlled public utility with public machinery to adjust wage disputes, and a strike against a private corporation.

HANSON WINS PROMOTION

Has Been Made Associate Director of Y. M. C. A. Work in France

Indianapolis, Ind., Sept. 13.—A. W. Hanson, formerly assistant secretary of the Indiana Y. M. C. A., has been made associate director of association work in France. Mr. Hanson's headquarters are in Paris and his work is connected entirely with extension plans among the civilian population. His promotion follows almost a year's activity with the French army where his long experience in Indiana and his grasp of Y fundamentals, together with his knowledge of French, resulted in his services being in great demand by the military authorities. Mr. Hanson recently made his first extemporaneous speech in French, a notable feat, as any member of the A. F.

Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

A farewell party at the Country Club in honor of "July the Dry" was so attractive to G. von B. Schultz, the town's prize physician on diseases of children, that when he was hastily summoned to the Wallingford-Reed mansion at three in the morning his brain was hanging in space, as it were. He entered the nursery like an automaton, with all the medicine he ever knew gone from him. A tearful social matron pointed to the feverish, tossing child of eight months. Doctor Schultz was by mere luck able to find a chair and his watch. As a fact he could see several children and watches. The child's pulse was booming along. It meant nothing to Schultz. He absently placed a finger on his own pulse and counted, and it was beating exactly the same as his own. The mother gulped for the verdict: "Oh, doctor, what is the matter with Gertrude?" Schultz summoned a bluff, collected himself and said reprovingly: "Madam, I am surprised at you! The-er-baby is d-r-o-n-k."

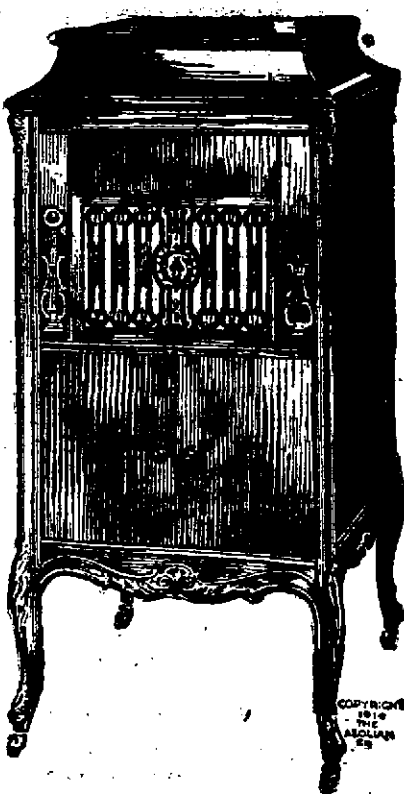

WILL ENTER S. A. COLLEGE

Miss Alice Mompetit, Local Worker, is Signally Honored

Miss Alice Mompetit who has been affiliated with the local work of the Salvation Army, for the past four months was yesterday the recipient of a telegram from the S. A. N. H. Q. informing her that her application for entrance to the S. A. college in New York was accepted. Candidate Mompetit has rendered valuable service to the local officers and will be missed very much. She leaves Tuesday morning for New York. A farewell meeting will be given for her tomorrow evening in the Salvation Army church.

Vocalion

The Last Word in Musical Instruments of the PHONOGRAPH Type.

A Phonograph made and perfected by a great Musical Instrument Organization.

Instrument Organization—THE AEOLIAN COMPANY Makers of the Pianola and the Steinway Baby Grand Pianos.

Why should not a Phonograph, made and backed by such an organization, produce better TONE QUALITY? It should—and it does. We'll be glad to have you make prove it to your entire satisfaction.

If you are a music lover, you will at once recognize Superior Tone in the playing of all makes of records. You know the New Aeolian Vocalion is the one standard phonograph that plays, successfully, all makes of disc records, with the same reproducer and with the same needle—starting and stopping the same Automatically.

We will be pleased to demonstrate this wonderful New Phonograph at any time.

We invite you to call at our show room and hear it when you are ready to buy or not.

We are always glad to show you.

Late winter varieties of apples and pears are best for drying because they possess a higher sugar content than the early varieties. In many localities, however, there are plenty of summer apples this year, but few of the winter varieties. In this event, the summer varieties by all means should be dried because they make a dried product acceptable to the palate.

Apples intended for drying should be reasonably mature but not soft, according to specialists of the United States Department of Agriculture. Handle with care in picking and hauling so as to avoid bruising, as bruised spots become discolored and must be trimmed off to make a good-looking product. Apples discolor rapidly, so preparations must be made to get the peeled product into the evaporator as rapidly as possible after it is pared. If a number of people are doing the work, this may be accomplished by dividing the paring, coring, slicing and spreading on trays, so that an apple spends only two or three minutes on the way from the paring knife to the drier.

If only one person is working, drop the pared fruit either into cold water or into a salt solution made by dissolving one tablespoon of salt in 4 quarts of water. Do not allow the fruit to stand in the water any longer than is necessary, because the water will dissolve the sugar and other valuable elements and the apple will absorb water, which will necessitate longer drying in the evaporator. Carefully pare and trim the product to remove all discolored places. When a paring and coring machine is used, the apples, before being placed in it, should be worked over with a knife to remove all discolored spots.

Care should be taken when slicing by hand to make the slices as nearly the same thickness as possible. Three-sixteenths to one-fourth inch is the best thickness. Apples may be quartered or cut into eights, but they do not dry as uniformly or as quickly as the sliced rings.

For an especially white product, blanch the fruit after it has been pared, cored and sliced by a short treatment of steam in order to prevent discoloration which otherwise result. Place a false bottom in the wash boiler 4 or 5 inches above the bottom and use a wire basket to rest on the false bottom. Put 3 or 4 inches of water in the boiler, place on the stove, cover boiler and allow water to boil. Place about 2 inches of sliced apples loosely in the wire basket, lower the basket into the boiler, taking care that the fruit does not get into actual contact with the water. Replace the lid and allow the fruit to stand in steam for 3 or 4 minutes. Remove and spread in a single layer on trays and place either in the sun or a warm drier. Apples when drying should be covered with muslin or mosquito netting to prevent insect infestation. A few minutes exposure will often cause the products to be infested.

Dried apples which are brown or chocolate colored from the discoloration which results from drying without blanching possess a high nutritive value and often have a better flavor than the more attractive-looking blanched products.

When apples are dried in an evaporator, start the drier at 130 degrees to 140 degrees, keeping this temperature until the fruit begins to wilt and becomes somewhat leathery, then increase the heat by moving the partially dried trays downward in the evaporator. The highest temperature that can be maintained or apples without danger of burning is 180 degrees. Examine the trays frequently, especially at the end of the drying period, in order that scorching or overheating may be avoided.

Dried apples will not be brittle when finished, but if a handful of the pieces are pressed together they will have an elastic, springy feel and will separate promptly when released, leaving no moisture on the hands. When one of the pieces is broken in two, it should not be possible to press moisture out of the center.

SOLDIERS MAY FISH WITHOUT A LICENSE

Stansbury Says Hard Rule Should not be Adopted Requiring Them To Carry Discharge Papers

NO LAW REQUIRES IT.

Ele Stansbury, attorney-general of Indiana, has advised George Mannfeld, chief of the fish and game division, state conservation commission, that the department should adopt no hard and fast rule requiring soldiers and sailors to carry their discharge papers with them or their service button when they hunt without license.

The attorney-general held that the world war soldiers and sailors have the privilege of hunting and fishing in Indiana without licenses in accordance with the 1919 law granting them rights already granted to soldiers of previous wars, and that there is nothing in the law that requires them to carry papers showing they are such and that proof of their being soldiers or sailors is another matter and not within the scope of the power of the commissioner.

Fish and game laws are held in the opinion to apply to soldiers and sailors as to others in each instance except that they may hunt and fish without having to take out licenses.

Pear may be dried in the same way as apples. The fruit should be mature but not soft. "Sometime it is an advantage to store fruit a few days before preparing for the drier. For home use prepare pears for drying, by paring, splitting in quarters or eights, coring and removing the stem. Work rapidly after peeling to avoid discoloration and use the same methods for preventing darkening as recommended for apples.

Dried pears, however, are brittle when sufficiently dried, instead of elastic like the dried apple. As soon as the dried pears or apples are taken from the drier place the fruit in a large wooden or pasteboard box which has been lined with newspapers. Cover with muslin to exclude insects and stir at intervals of a day or two, mixing the older portions thoroughly with each new lot. Keep the box in a warm, dry, dark room so that drying may slowly continue by loss of moisture in the warm atmosphere. Give the fruit ten days to two weeks of this treatment before placing it in permanent containers for storage.

WORK IN E. A. DEGREE

Regular work in the E. A. degree of Phoenix lodge No. 62, F. & A. Masons will be held promptly at 7:30 o'clock, Tuesday evening. A large attendance is desired.

For a Pain around the Heart after Eating.

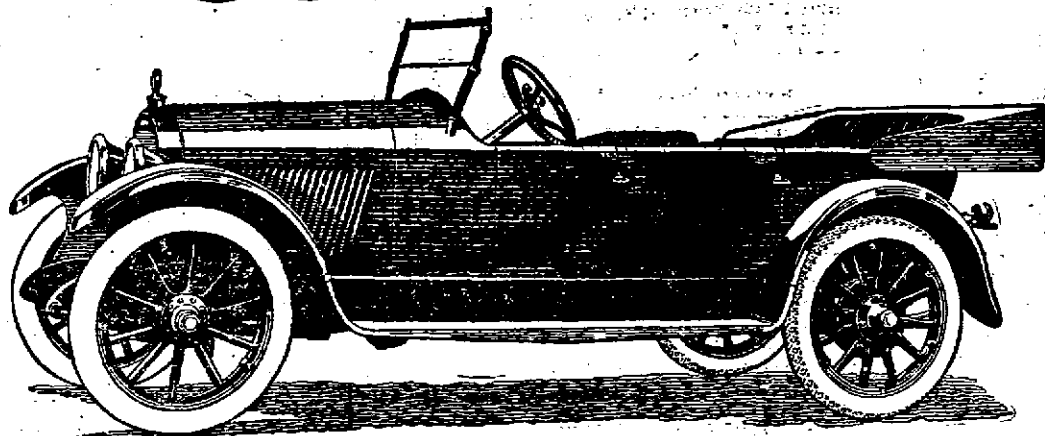

TAKE PEPSINCO

Sometimes in front just under the heart, sometimes around under the left side, under the ribs behind the heart it's a sharp or acute pains; sometimes a dull heavy pain, leaving soreness. It's gas on the inside generated through gaseous foods, or, because of systematic inability to properly assimilate the food, this gas soon collecting, forms a lump that causes the pain. This is only one of a dozen different indications of indigestion which PEPSINCO immediately relieves. Keep PEPSINCO handy and take it the next time.

Ask your druggist—he sells and recommends Pepsinco.

Amusements

"Two Gun Betty" at Mystic

"Two Gun Betty" with Bessie Burriscale in the leading role, will be the attraction tonight at the Mystic theater. In addition to this picture, a one reel Burley Q. comedy will be shown, and the entire program is particularly arranged to meet the approval of the Saturday night theater goers. The 15th episode of the "Red Glove" series will be shown at this theater on Monday night, and the comedy, "Call the Cop," will also be on the program.

"Shanghaied" at Princess

A Chaplin classic, "Shanghaied", which bears repetition, will be at the Princess theater tonight, together with "Jacques of The Silent North", in which Mitchell Lewis is starred. It is a thrilling story of the north woods.

Society girls who take life as one continual round of automobiles, parties and expensive frocks may get some new ideas of how to lavish wealth if they will see "The Hoodlum," starring Mary Pickford, produced by her and which will be seen beginning Monday at the Princess.

As Amy Burke, Miss Pickford depicts the part of a girl whose chief life problem is how to spend money. Amy's day begins with a lesson from a high-priced tutor who is awed by her vast wealth and consequently quite indifferent as to her education. Her other diversion is a high priced roadster which she pilots around with the speed of a race track marvel. Her wealthy but unscrupulous grandfather has also employed a groom who accompanies her on all auto excursions and whose advice she does not heed.

All of this luxury suddenly fades away showing Amy as a tenement girl whose real character is brought out when her devoted but poor father returns to town after a long absence. She prefers to live in a tenement with her father than to live in her grandfather's house without him. How a discovery made by Amy while living in the tenements aids her in restoring to respectability a man-whom she loves and whom her grandfather has unjustly sent to the penitentiary makes a pleasing and interesting ending to this second of Miss Pickford's releases under the banner of First National.

Hoosier Corn Turner

2nd and Penn. R. R.
RUSHVILLE, IND.

Saves its cost in 3 days. Saves corn, time and labor. Fits any drill and can be attached in a few minutes. These turners will do the work in any kind of down or elbowed corn. Will make the drill run perfectly smooth. Will keep the outside discs from riding or getting on row of corn; roll the pumpkins out of way without injury.

Get your drill ready for Fall sowing by attaching one of these turners. A great quantity were sold last year and gave entire satisfaction.

The public is warned not to infringe or make these devices as we are fully protected by patent.

Wellman and Mrs. Mae Wellman of New Salem and the Rev. and Mrs. J. R. Stanton and daughter of Fowler. Mrs. Jones was formerly Miss Ollie Winship of this county. In the evening Mr. and Mrs. Gus Thomas of near Shelbyville entertained Mr. and Mrs. Jones and their guests.

The Willing Workers of the M. P. church of New Salem held their regular monthly business meeting Wednesday afternoon at the home of Mrs. Charles Gruell, north of New Salem, the hostesses being Mrs. Allie Gruell, Mrs. Bert West and Mrs. Charles Gruell. There were about thirty in attendance. After the business session a short program was rendered and refreshments of ice cream and cake were served.

Miss Nelle Baldwin, who is well known in this city, having taught Latin in the high school here, was the guest of honor at a party given by the Tri Kappas of Greensfield, Thursday evening. Miss Baldwin has recently returned from France where she was connected with the Y. M. C. A. work during the war. The party was given at the gun club quarters. The tureen dinner was the first thing on the program, which was followed by a number of games. Miss Baldwin will teach Latin in the Noblesville high school this year.

A reception was held last evening in the First United Presbyterian church in honor of Miss Mary E. Logan, who expects to return soon to India to take up work there as a missionary, under the care of the Woman's Board of Missions of the United Presbyterian church. Miss Logan has been in this country on a furlough for more than a year. The reception was largely attended by the people of the congregation and their friends. A brief program of music and talks by representatives of the various organizations of the church was carried out with Miss Mary Fisher presiding. At the close of the program the pastor, in behalf of the congregation, presented Miss Logan a gift in gold, in respect for their appreciation of her work. She responded in a brief talk. At the close of the social hour refreshments were served.

HERBERT HOOVER FAVORS THE LEAGUE
Continued from Page One

dia, of which Sir Alexander Cardew is chairman. The members will study reformatory and penal methods in this country preliminary to making radical changes in the penal system of India.

Others who came on the liner are Dr. John P. Andrews, secretary of the American Association for Labor Legislation, who has been in France and England for two months as technical adviser from the United States government to the committee of arrangements for the International congress next month, and Baron Joto next month, and Baron Joto and members of the Japanese peace conference mission.

When the history of the war is finally written it will credit Hoover with a large part in the contest. The historian will also give him a large measure of credit for effective constructive work in Europe following the signing of the armistice.

A person who attempted to give Hoover full credit today would say that through his organization for feeding the hungry people of Europe Bolshevism was overcome.

When the United States entered the war Hoover was in London in charge of the relief work in Belgium. He had been engaged in supervising the distribution of food to the starving Belgians since early in 1914. He had been called from his home in California and from his profession, that of mining engineer, to take charge of this Belgian relief work. For more than two years before the United States entered the war the organization of which he was the head stood between the Belgian people and starvation.

When the United States entered the war against Germany Americans who were in Europe at that time were thrown into a near panic. They all desired to leave for home at once. Many of them were caught without ready money and were unable to obtain credit. In the great confusion that existed there was a call for leadership and Hoover went to the front as the leader.

4-MONTHS OLD BABY KILLED IN RUNAWAY

Mother and Two Other Children Seriously Hurt When Buggy Crashes Into Street Car

ACCIDENT IN INDIANAPOLIS

Indianapolis, Ind., Sept. 13.—A four-months-old baby is dead and the mother and two other children are in the City Hospital in a serious condition, as a result of injuries suffered Friday night when a horse hitched to a buggy in which the family was riding, ran away and crashed into a street car. The accident occurred in West Michigan street, near Caldwell street.

The occupants of the buggy were John Morgan, 648 Porter street, his wife, Mary Morgan; their three children, Mary, age one; Carl age two and Pauline, age four month, and Major Milburn, age four, 1058 Pershing avenue. The child died shortly after being removed to the hospital.

Within a short time he had made great headway in straightening out the tangle and in good time, through the operation of his plans, Americans were able to start home. In cases where they did not have money he saw that they obtained credit.

While he was in the midst of helping the Americans get out of Europe Hoover received a cablegram from President Wilson, asking him to come to Washington at once and take charge of the food situation in this country. The cablegram explained that the President desired first of all that an inquiry be made into the existing available stocks of foodstuffs and into the costs and practices of the various food producing and distributing trades; that since the United States had entered the war it was imperative that hoarding of every kind be prevented and that production of foodstuffs be stimulated.

PERSHING ROYALLY GREETED

General Re-establishes A. E. F. Headquarters at Washington.

Washington, Sept. 13.—Gen. John J. Pershing today re-established headquarters of the American expeditionary forces at the war department, where more than two years ago he took up a task the results of which astounded the world, to him brought fame and to his country undying glory. Gen. Pershing was welcomed on his return to the national capital late yesterday with a fitting demonstration of gratitude to the man who led the American arms to victory in France.

At the headquarters where they began General Pershing and his staff will wind up the affairs of the greatest force for overseas operations ever organized in the history of the world.

Shouts from the crowds which packed the concourse of the Union Station welcomed General Pershing when he stepped from his special train yesterday.

The Cheney
Orchestral Chambers

A Distinct Contribution To Music

The fundamental acoustic principles of the pipe organ have been adapted to the phonograph in the Cheney Orchestral Chambers.

Those chambers in the organ pipes which have made the pipe organ so rich and full add their mellow sweetness to tones as the Cheney reproduces records.

It is a wonderful advance in the art of reproducing music. Connoisseurs assure us that the series of exclusive inventions embodied in the Cheney constitute the greatest improvement since phonographs were invented.

Surely they have placed the Cheney in a class apart with tones of unrivalled clarity and pureness.

Cheney Period Cabinets in regular and art models are masterpieces, the pride of the most talented furniture craftsmen in the country.

EVIDENCE WILL BE PRESENTED AT ONCE

Marion County Grand Jury Will be Informed of Charges Against Indianapolis Negro

ACCUSED OF POLICE MURDER

Indianapolis, Ind., Sept. 13.—Evidence gathered by police and detectives to substantiate the charge of murder against Upshaw (Big Boy) Northington, colored, 711 Darnell street, accused as the slayer of Wade Hull, police sergeant, who was shot to death Wednesday night in a raid on a craps game at 216 Anderson street, was to be presented today to the Marion county grand jury.

Detectives said they desired to get the evidence before the grand jury as quickly as possible that arrangements may be made for the reduction of the bonds of some of the witnesses, several of whom have families who are in need of their support.

Northington, whose nickname was given to him because of his gigantic stature, was the fourth man arrested, in the roundup of suspects following the murder of Sergeant Hull. He denied any knowledge of the shooting until late Friday afternoon, when he was confronted with the evidence gathered by the police and detectives and slated on a charge of murder.

A short time later he made a statement to detectives in which he admitted that he had a revolver in his hand at the time the police entered the house and that it was discharged just before he escaped. He said he did not know that he had hit any one.

More Money FOR Your Corn

If first left to dry in the field and then stored in a rat-proof, concrete corn crib, you can easily keep it dry all winter. Result: a better grade of corn, less spoilage and bigger profits.

Come in and talk it over. We'll be glad to help figure how big a crib you need, to show you plans of modern cribs and granaries and to estimate the cost of materials.

NOTICE OF DISSOLUTION OF PARTNERSHIP

Notice is hereby given that the partnership heretofore existing between Frank H. Green and John C. Rosecrance, under the name and style of J. C. Rosecrance & Co., has been dissolved this 22d day of August, 1919.

(Signed) FRANK H. GREEN
JOHN C. ROSECRANCE.

NOTICE OF FINAL SETTLEMENT OF ESTATE

Notice is hereby given to the creditors, heirs and legatees of John E. Gowdy, deceased, to appear in the Rush Circuit Court, held at Rushville, Indiana, on the 13th day of September, 1919, to show cause, if any, why final settlement accounts with the estate of said decedent should not be approved; and said heirs are notified to then and there make proof of heirship, and receive their distributive shares.

Witness, the Clerk of said Court, this 22d day of August, 1919.

LORIN MARTIN,
Clerk Rush Circuit Court.

Douglas Morris, Attorney.

ASSEMBLE NUCLEUS OF RED CROSS EXHIBIT

Gathered at Washington to Instruct Public and Preserve Materials Used on Fields of Mercy.

MANY CAME FROM EUROPE

The nucleus of a permanent Red Cross exhibit has been assembled at the National Headquarters of the American Red Cross in Washington for the instruction of the public and the preservation of interesting materials used on fields of mercy throughout the world.

Many boxes have come from all Europe for the exhibit, most of them containing gifts from people who during the war. These gifts, however simple, are significant of a kindly feeling and the most touching gratitude, and will receive a place of honor in the museum.

There are documents of great value, photographs, badges and medals awarded to the Red Cross, uniforms, flags and equipments of Red Cross units overseas. Here also will probably be placed a series of eight paintings by Cameron Burns, a Lieutenant in Red Cross service.

It is hoped that the complete exhibit may be housed in a permanent building where it may tell the story of the Red Cross, and stand as a worthy and perpetual memorial to the devotion of millions of Red Cross workers—men, women and children—many of whom have given years of their lives to Red Cross work.

ADVISES THAT WHEAT SOWING BE DELAYED

U. S. Department of Agriculture Says There is Now Danger of Appearance of Hessian Fly

SUGGESTS ABOUT OCTOBER 1

The U. S. Department of Agriculture is advising that wheat sowing be delayed until late in September on account of the re-occurrence of the Hessian Fly.

A chart on the desirable dates of seeding recommends that wheat be sown in this latitude between the 29th of September and the 9th of October.

The fly seems to come in waves. There has been no great damage from fly in this locality for a few years, but many farmers have found them in considerable numbers during the past year. This leads experts to expect another outbreak.

The fly lays its eggs on the early wheat and then dies. If the wheat is sown late the fly dies before the wheat comes up, and is reduced in numbers from year to year. Unless late seeding is practiced this pest will very likely increase in number again.

She Wants to Help Others

Mrs. A. G. Wells, R. F. D. Rocky Mount, N. C. writes: "I cannot praise Foley Kidney Pills enough for the wonderful benefits I have derived from their use. Please publish this statement as I want the people everywhere to know of them." Lame back, sore muscles, puffiness under eyes, and an "always tired" feeling are indications that kidneys and bladder are not working properly. Foley Kidney Pills strengthen weak, disordered kidneys and bladder. F. B. JOHNSON Adv.

Simple Home Remedy
Advised For Rose
And Hay Fever

Anyone Can Make a Pint For
Trifling Sum and Used in
Time May Prevent
Annual Attack

"No matter how severe your yearly attack be, no matter how distressing or humiliating—its intensity can be reduced to a harmless, mildness," says a Kentucky druggist who believes from what he has seen that this simple home made remedy is a most important discovery. He has seen the most severe and apparently unconquerable cases reduced to what might be called a mild cold in twenty-four hours. In many cases where the patient started treatment a week or ten days before the expected attack the unwelcome yearly visitor failed to appear with anything like its usual intensity. People who want to try this new treatment can make a pint in a few minutes. Pour one ounce of Mentholized Arcline into a pint bottle then fill the bottle with water that has been boiled. Gargle daily as directed and sniff or spray the nostrils twice daily. That's all there is to the treatment which so many sufferers have found to be a true friend. Mentholized Arcline in one ounce vials is dispensed by all the better pharmacies.

FASCINATING TEETH

How Every Woman Can Quick-ly Charm Her Friends With
Lovely Teeth,
Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time. And the cost is so little. Just go to any drug or department store, and get a large tube of SENRECO TOOTH PASTE for 25 cents. Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of pyorrhea and banish acidity in the mouth. It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

WORRIED ABOUT
THE BIG CROWDS

Cincinnati Reds Have Pennant
Cinched But the Redland Field
Won't Hold The Fans

WILL SEAT ABOUT 25,000

Suggested That Series be Played at
Speedway But This Don't Meet
The President's Approval

(By United Press.)

New York, Sept. 13.—Cincinnati has practically cinched the National League pennant, but here are a lot of fans in the Ohio city who are worried about the world's series.

There isn't a fan who doubts that the Reds will cop the flag, but there are hundreds of them who are fearful that they will not get to see the series.

Redland Field, the home grounds of the Maroon crew will not hold the crowds, they claim. The park is for from a "cheese box" affair, as it has a seating capacity of about 25,000. But it has been filled to overflowing with Sunday crowds during every big series since the Cincinnati prizes became a contender. In view of this fact the yard will never hold the world's series throng, the bugs howl.

Suggestions were made to August Herrmann, president of the Cincinnati club to stage the series in the mid-field of the Sharonville speedway, about fifteen miles outside of Cincinnati. It was pointed out that the stadium with a capacity of about 100,000 would be just the thing to accommodate every fan who wanted to see the big setto.

But the plan did not meet with the favor of the Red chief. Lack of sufficient transportation to the speedway and the difficulty of laying out a field perfect enough for the playing of the big classic were given as grounds for his disapproval.

Herrmann as yet hasn't claimed victory for the team. "But if the Reds win they will play on their own grounds," he said.

TO PREACH AT LOCAL CHURCH

The Rev. John Orr of Middleport, Ohio, will preach Sunday at the First Presbyterian church, at the morning and evening services. The members of the congregation are asked to go and hear him. Sabbath school will be held at 9:15, and preaching at the usual hours.

PIANO TUNING

I will be in Rushville during the week of Sept. 15th. Leave orders at the Seaburn House. F. W. Porter.

WART THREATENS
TO DAMAGE CROP

Potato Growers Are Asked to be on
Lookout for Disease Which Will
Ruin Yield

SIGNS OF THE MALADY.

Potato Crop Last Year Amounted to
400,106,000 Bushels—Disease No-
ticed in Pennsylvania.

The potato crop of the United States aggregating 400,106,000 bushels in 1918 and worth \$475,136,000 is endangered by a serious disease, the potato wart, which was discovered in Pennsylvania in September, 1918, and may occur elsewhere in the United States. Every one growing potatoes, either in a home garden or for sale, is especially urged to be on the lookout for this disease.

Wart is usually considered one of the most serious of potato diseases. It has caused great damage abroad during recent years, especially in England and Ireland, whence many of our imported potatoes have come. The parasite which causes the disease lives in the soil for many years, the severity of the disease apparently depending on the degree of infestation of the soil. Hence, in fields where potatoes follow potatoes in successive years or at frequent intervals the disease becomes steadily worse until it is impossible to raise sound tubers. In some gardens in Pennsylvania in the fall of 1918 the disease was so severe that the crop was practically a total loss.

The first evidence of wart are small, spongy outgrowths on the potato, especially at the eyes. These increase in size and may grow as large as the potato itself. Not infrequently a number of warts may arise at different places on the same tuber, causing the whole potato to become a spongy, warty mass. In the early stages the warts are light brown, the color becoming darker and finally black with age. Badly diseased potatoes decay in the field and those less seriously attacked are extremely susceptible to rot in storage. Wart does not kill the potato plant and seldom interferes seriously with the growth of the potatoes; therefore the detection of the disease is difficult or impossible before digging time.

The wide distribution of the potatoes imported from abroad in 1912 and in earlier years makes it possible that wart may have established itself in more than one locality in the United States. Hence potato growers, potato dealers and potato users should be on the lookout for it in all parts of the country. Wart is easier to prevent than to control. It is highly important that all localities where it occurs be discovered as soon as possible, in order that proper measures may be taken to prevent its further spread and to eradicate it where present.

Keep watch at digging time for potatoes with warty outgrowths which are light brown when young, black and decayed when old. Report promptly all suspicious cases and send specimens to your county agent, or to the Plant Pathologist at the Purdue Experiment Station.

BANK PRESIDENT HAS
3 REMEDIES FOR H.C.I.

Greater Production, Economy, and
Elimination of High Prices Will
Solve The Question

CHARLES SABINS SPEAKS.

New York, Sept. 13—"Let's get to work", said President Charles Sabins, of the Guaranty Trust Company, of New York, emphasizing to the United press today his opinion regarding the most vital problem confronting the country—the high cost of living.

Three remedies are available, he said: greater production; economy; and elimination of exorbitant prices.

Sabins bases his chief remedies on the reason that the basic causes of the high cost of living are world shortage of necessities, extravagance and profiteering.

Milk Twice as Rich
Ever at Your Call—Economical

We take rich milk from high-bred cows and remove over half of the water. This is done in a vacuum, at low heat.

So Van Camp's is as thick as thick cream. You can even dilute it for coffee or ice cream. For cooking, dilute it still further.

Pasteurized Milk

Van Camp's is a sterilized milk. It is sterilized in the can after sealing. So it means a safe milk, a germless milk for drinking.

It comes from sanitary dairies, from inspected cows. All that science can do is here done to protect you.

It comes from healthy, high-bred cows, so the milk is a vitalized milk.

There is no better milk produced in the world than the milk which you get in Van Camp's.

Reduces Milk Bills

The greatest saving comes in ending waste.

Open a small can or a large can, as you need. You never have too little milk, you never have too much. And you never have skimmed milk. Even for cooking you can have the full butter fat.

You will have better milk and lower milk bills—safer, cleaner, richer milk—when you adopt Van Camp's.

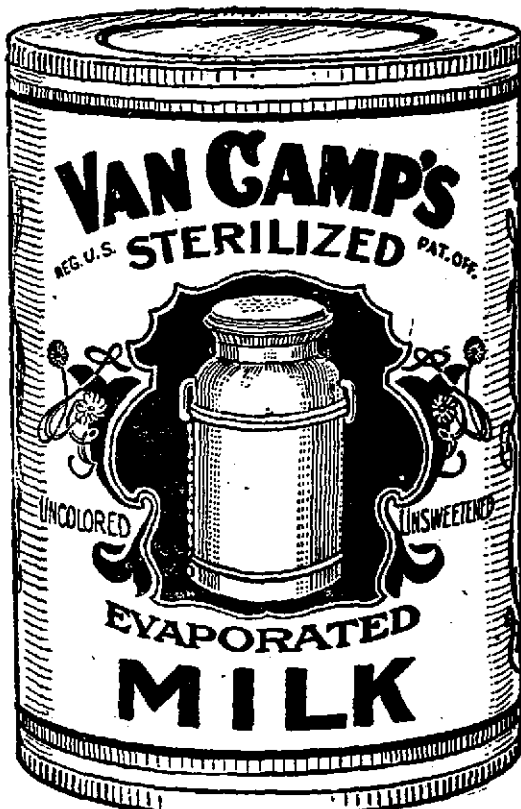

A Super-Grade

The Van Camp experts have worked 20 years to produce the finest milk in America. Every condition has been perfected.

It is condensed in the most scientific way.

If you use bottled milk, see how Van Camp's excels it. If you use other evaporated milk, try the Van Camp grade.

Millions of people have been won to Van Camp's. One trial can will win you.

"The Cow in the Pantry"

Van Camp's
Milk

Rich, whole milk reduced to double richness by low-heat evaporation

Sealed at Model Condenseries in Seven Great Dairying Districts by

Van Camp Products Company
